Product Specification

- Model: CFEB-001
- Wheel Size: 26 Inches
- Range: Up To 60km
- Motor Power: 250W
- Motor Type: Brushless
- Battery Capacity: 36V 10.4Ah
- Foldable: Yes
- Brake Type: Disc
- Highlight: 60km range carbon fiber electric bike,
36V 10.4Ah carbon fiber electric bike,
18kg carbon fiber electric bike

Product Description

250W 36V 10.4Ah Brushless Carbon Fiber Electric Bike With 60km Range CFEB-001

Product Description:

The bike's frame is constructed from premium quality Carbon Fiber Material, which provides exceptional durability and strength while also reducing the overall weight of the bike. This makes it easy to maneuver and carry around when needed. The bike weighs only 18kg, making it one of the lightest electric bikes in the market.

The Carbon Fiber Electric Bike is equipped with an LCD display that shows you important information such as your speed, distance, and battery life. The display is easy to read and provides real-time data to help you keep track of your progress and make adjustments as needed.

One of the key features of this bike is its impressive max speed of 25km/h. This makes it perfect for commuting to work or school, running errands, or simply enjoying a leisurely ride around town. You can easily adjust the speed settings to suit your needs and preferences. The bike also comes with 26-inch wheels, which provide a smooth and comfortable ride. The wheels are designed to handle different types of terrain, whether you're riding on flat surfaces or rough roads. The bike's frame and wheels work together to provide a stable and balanced ride, ensuring your safety and comfort at all times.

In summary, the Carbon Fiber Electric Bike is a top-of-the-line product that is perfect for anyone who is looking for a high-quality and reliable electric bike. Its Carbon Fiber Material construction, LCD display, max speed of 25km/h, and 26-inch wheels make it a standout product in the market. Whether you're commuting to work, running errands, or simply enjoying a leisurely ride around town, this bike is sure to meet all your needs and exceed your expectations.

Technical Parameters:

Motor Type	Brushless
Model	CFEB-001
Motor Power	250W
Display	LCD
Brake Type	Disc
Range	Up To 60km
Foldable	Yes
Weight	18kg
Suspension	Front
Wheel Size	26 Inches

This Carbon Fiber Electric Bike is a perfect combination of high-quality carbon fiber material and advanced technology. It can be used as a Carbon Fiber Mountain Bike or Carbon Fiber Road Bike. With its Brushless motor and 250W power, it provides a smooth and powerful ride. Its LCD display shows all the necessary information during the ride. The Disc brake type ensures a safe and reliable braking system. It has a range of up to 60km and can be easily folded for storage. With a weight of only 18kg, it is easy to carry and transport. Its front suspension and 26 inches wheel size provide a comfortable and stable ride on any terrain.

Applications:

Carbon Fiber Road Bike: The Carbon Fiber Electric Bike is suitable for road bike enthusiasts who love speed and performance. With its brushless motor and 250W power, the bike can reach high speeds, making it perfect for racing and long-distance cycling. The lightweight carbon fiber construction makes it easy to maneuver, and the lithium-ion battery provides up to 60km of range, ensuring that you can enjoy your ride without worrying about the battery life.

Carbon Fiber Mountain Bike: The Carbon Fiber Electric Bike is an excellent choice for mountain biking enthusiasts who want to experience a new level of performance. With its powerful motor and lightweight construction, this bike can easily tackle challenging terrain, steep hills, and rough trails. The lithium-ion battery provides enough power to cover long distances, and the bike's components are designed to withstand harsh conditions, making it a reliable choice for adventurous riders.

Carbon City Bikes: The Carbon Fiber Electric Bike is also an excellent choice for city biking enthusiasts who want to commute to work or run errands around town. The bike's lightweight construction and powerful motor make it easy to navigate through traffic, while the lithium-ion battery provides enough power to cover long distances. Additionally, the bike's stylish design and carbon fiber construction make it a fashion statement, reflecting your taste and style.

The Carbon Fiber Electric Bike is a versatile product suitable for various occasions and scenarios. Whether you are a mountain biking enthusiast, a road bike racer, or a city biking enthusiast, this bike provides an excellent combination of technology and style, making it the perfect choice for anyone who wants to experience a new level of performance.

Customization:

Packing and Shipping:

Product Packaging:

- The carbon fiber electric bike will be securely packaged in a strong cardboard box.

- The bike's components and accessories will be carefully wrapped and placed inside the box to prevent any damage during shipping.
 - The box will be labeled with the product name and shipping address for easy identification.
- Shipping:
- The carbon fiber electric bike will be shipped via a reputable courier service.
 - The shipping address provided during checkout will be used to deliver the bike.
 - A tracking number will be provided to the customer to track the shipment.
 - Delivery times may vary depending on the customer's location and the courier's delivery schedule.
