## Product Description

### 11 Mph Kids Electric Scooter with Adjustable Handlebars PP Deck 45 Kg Weight Capacity

#### Product Description:

The Electric E Scooter is equipped with an 18V 2.0AH battery that provides a long-lasting ride time. With a top speed of 11 Mph, kids can enjoy a thrilling ride while still being safe. The battery can be easily charged and provides a runtime of up to 40 minutes of continuous use. This makes it perfect for kids who want to ride around the neighborhood or park for hours without stopping.

The Kids Electric Scooter comes with a kickstand, which makes it easy to park and store. The kickstand also ensures that the scooter is stable when not in use. The 3.5-inch tires provide a smooth ride and can handle most terrains. The tires are also durable and can withstand rough terrain, making this scooter perfect for outdoor adventures.

The Electric Kick Scooter is designed to be safe for kids. It comes with a hand-operated rear brake that ensures a smooth and safe stop. The scooter also has an adjustable handlebar that can be adjusted to fit the height of the child. This ensures that the child is comfortable and in control while riding the scooter.

In conclusion, the Kids Electric Scooter is the perfect choice for parents who want to provide their kids with a safe, reliable, and fun mode of transportation. The Electric Stand Up Scooter is designed to be easy to ride and operate, making it perfect for kids who are just starting to learn how to ride. With a weight capacity of 45 Kg, it is suitable for most kids. The 18V 2.0AH battery provides a long-lasting ride time, and the top speed of 11 Mph ensures a thrilling ride while still being safe. The 3.5-inch tires provide a smooth ride and can handle most terrains. The kickstand and hand-operated rear brake ensure that the scooter is safe and easy to park and store. Overall, the Electric E Scooter is a great investment for parents who want to provide their kids with a fun and safe mode of transportation.

#### Applications:

If you are looking for a fun and practical way to get around, a children electric scooter can be a great choice. The JINLIN JL051-02 model is a 2 wheel electric scooter that is made in China and offers a range of features that make it perfect for kids. Whether you are looking for a way for your child to get to school or you want them to have a fun way to explore the neighborhood, this electric e scooter has a lot to offer.

One of the key benefits of the JINLIN JL051-02 electric scooter is that it has adjustable handlebars. This means that it can be adjusted to fit the height of your child, making it comfortable for them to ride. It also means that the scooter can grow with your child, ensuring that they can continue to use it for years to come.

The motor in this scooter is a 60-watt motor, which provides plenty of power for kids to get around. It is also designed to be energy-efficient, so you can be sure that it won't drain the battery too quickly. Speaking of the battery, it takes just 4-6 hours to charge, making it easy to keep the scooter ready for use at all times.

The JINLIN JL051-02 electric scooter has a deck made from PP, which provides a sturdy and durable platform for your child to stand on. It is also designed to be easy to control, with a simple twist-grip throttle that is easy for kids to use.

When it comes to product application occasions and scenarios, there are a lot of different ways that kids can use this electric scooter. It is perfect for getting to and from school, allowing kids to avoid the hassle of traffic and parking. It is also a great way for kids to explore their neighborhood, giving them the freedom to go wherever they want.

The JINLIN JL051-02 electric scooter is also a great choice for outdoor activities, such as camping or picnics. It is compact and easy to transport, so you can take it with you wherever you go. It is also a fun way for kids to spend time with their friends, whether they are racing around the block or just cruising around the park.

If you are interested in purchasing the JINLIN JL051-02 electric scooter, keep in mind that the minimum order quantity is 10 pcs. The packaging details are 65\*23.5\*22.5cm, and delivery time is 40-50 days. With its durable construction, adjustable handlebars, and energy-efficient motor, this electric e scooter is a great choice for kids of all ages.

#### Customization:

Our high power electric scooter comes with a 60-watt motor and 3.5-inch tires, ensuring a smooth and comfortable ride. With a weight capacity of 45 kg, it is perfect for kids who love to ride around the neighborhood.

Our electric e scooter also features a kickstand, making it easy to park and store. The charging time is only 4-6 hours, and it comes with packaging details of 65\*23.5\*22.5cm.

Order a minimum of 10 pcs and receive your personalized electric kick scooter in 40-50 days. Contact us today to learn more about our

product customization services.

## Packing and Shipping:

### Product Packaging:

- The kids electric scooter will be securely packaged in a sturdy cardboard box.
- The box will be sealed with strong packing tape to prevent any damage during shipping.
- Inside the box, the scooter will be surrounded by protective foam to keep it safe during transit.

### Shipping:

- The kids electric scooter will be shipped via a reputable courier service.
- Shipping costs will be calculated based on the destination and weight of the package.
- Once the scooter has been shipped, a tracking number will be provided so that you can track your package.
- Delivery times may vary depending on the destination, but we strive to deliver the scooter as quickly as possible.
