Product Description

Black Aluminum Alloy Steel Electric Scooter With Max Speed 31KM/H 36V 7.5Ah Battery

Product Description:

The powerful 350W motor provides the necessary power to get up hills and handle uneven terrain. With a maximum loading weight of 100KG, this Electric Scooter is perfect for teenagers and young adults looking for a fun way to get around.

One of the best features of this Electric Scooter is its foldability. This means that it can easily be stored in a locker or taken on public transport. It's also easy to carry around when not in use, making it the perfect choice for those on the go.

The Electric Scooters For Teenager market is growing rapidly, and this model is a great option for those looking for a reliable and powerful ride. With its high speed and strong motor, it's perfect for those who want to get around quickly without sacrificing style or comfort.

Overall, this 2 Wheel Electric Scooter is a fantastic choice for teenagers and young adults who want to get around quickly and efficiently. Its high power motor, durable construction, and foldable design make it an excellent investment for anyone looking for a fun and reliable way to get around.

Technical Parameters:

Applications:

With a battery capacity of 36V 7.5Ah, this Electric Scooter can travel up to 31KM/H, making it a convenient way for teenagers to travel short distances. The motor power of 350W ensures that the Electric Scooter has enough power to tackle different terrains. The tire size is 8.5 inches, providing a smooth and comfortable ride. The charging time is 4-6 hours, which means that the Electric Scooter can be charged overnight and be ready to use the next day.

The JL051-03 Electric Portable Scooter is perfect for teenagers who want to explore their neighborhood or city with friends. It can be used for commuting to school or work, running errands, or simply for leisure activities. The Electric Scooter is also a great way for teenagers to enjoy the outdoors while reducing their carbon footprint.

This Electric Scooter is designed with safety in mind, with features such as a rear brake and a front headlight that ensures visibility during nighttime rides. The Electric Scooter is also lightweight and portable, making it easy to carry and store when not in use.

In conclusion, the JL051-03 Electric Portable Scooter by JINLIN is a great investment for teenagers who want an eco-friendly and convenient way to explore their surroundings. With its fast speed, powerful motor, and long battery life, this Electric Scooter is perfect for teenagers who want to enjoy the outdoors in a fun and sustainable way.
