- Type: Electric Bicycle
- Display: Bafang Display
- Highlight: electric offroad bikes with integrated controller ,  
full suspension off road electric bicycle,  
oem 26 Inches off road electric bicycle

## Product Description

### Aluminum Alloy Full Suspension Electric Bicycle With Integrated Controller

#### Product Description:

The frame of this electric powered bicycle is made of high-quality aluminum alloy, ensuring its durability and stability even on rough terrain. The design is sleek and modern, perfect for those who want to make a statement while exploring the great outdoors.

The front light of this electric powered bicycle is fitted with a bright LED light, providing sufficient illumination to ride safely even in low-light conditions. This feature is particularly useful for those who enjoy exploring after sunset.

The Bafang Display is another key feature of this electric powered bicycle. It provides a clear and easy-to-read display of the bike's speed, battery life, and other important information. This allows riders to keep track of their progress and ensure they are always aware of the bike's performance.

The motor of this electric powered bicycle is available in two options – 36V 250W and 48V 1000W. The 36V 250W motor is suitable for those who prefer a more leisurely ride, while the 48V 1000W motor is perfect for more adventurous riders who want to tackle tougher terrain and steeper inclines.

In conclusion, our Off Road Electric Bicycle is the ideal choice for adventure seekers who want to explore the outdoors on an electric powered bicycle. With its durable aluminum alloy frame, bright LED light, easy-to-read Bafang Display, and powerful motor options, this electric powered bicycle is sure to provide a thrilling and unforgettable riding experience.

#### Technical Parameters:

Battery	36V 10Ah-48V 21Ah
Frame Material	Aluminum Alloy
Front Light	LED Light
Gears	7-speed Shimano Gears
Motor	36V 250W-48V 1000W
Brakes	Hydraulic Disc Brakes
Display	Bafang Display
Controller	Integrated Controller
Suspension	Full Suspension
Wheel Size	26 Inches

#### Applications:

The AMS-TDE-14 is equipped with 7-speed Shimano gears, which allows the rider to seamlessly switch between different gears to tackle different terrains. The Bafang display is user-friendly and provides all the necessary information about the bike's speed, battery life, and distance covered. The LED light on the front of the bike provides adequate lighting while riding in low-light conditions.

The 26-inch wheel size of the AMS-TDE-14 Off Road Electric Bicycle provides excellent stability and control, making it perfect for off-road adventures. The integrated controller ensures that the bike runs smoothly and efficiently, providing the rider with a comfortable and enjoyable experience.

This electric bike is perfect for outdoor enthusiasts who enjoy exploring nature trails, mountain paths, and other off-road terrains. It is also ideal for commuters who want a more eco-friendly and cost-effective mode of transportation. The AMS-TDE-14 Off Road Electric Bicycle is designed to provide maximum performance, durability, and comfort, making it a great investment for anyone looking for a high-quality electric bike.

#### Customization:

Customize your AMS-TDE-14 Off Road Electric Bicycle with our product customization services. Our electric bicycle is a high-speed electric two-wheeler bike perfect for off-road adventures. Made in China, the AMS-TDE-14 features hydraulic disc brakes for safe and reliable stopping power, full suspension for a comfortable ride, and a powerful motor ranging from 36V 250W to 48V 1000W for maximum performance. Additionally, the bike comes with a bright LED front light for increased visibility during nighttime rides.

With a minimum order quantity of 10 pieces, you can customize the AMS-TDE-14 to fit your specific needs. Our delivery time is between 40-50 days, ensuring you receive your customized electric mountain bike in a timely manner.
