## Product Description

### Sg-Banpeng-Box Heavy Duty Electric Cargo Tricycle With Hydraulic Front Fork

#### Product Description:

The Electric Cargo Tricycle features a powerful Controller that runs on 72V and can generate 2000-3000W of power. This means that you can transport heavy loads over long distances without worrying about running out of power. With this electric cargo bike, you can easily carry up to 500 kg of weight, making it the perfect choice for businesses that require frequent transportation of goods.

The maximum speed of the Electric Cargo Tricycle is 25KM/H, making it suitable for use in both urban and rural areas. You can use it to transport goods within your local area, or you can take it on long journeys without worrying about speed limits. The vehicle is easy to handle, making it perfect for both experienced and novice riders.

The Electric Cargo Tricycle is designed with a minimum ground clearance of 150mm, ensuring that you can navigate through rough terrain without worrying about damaging the vehicle. The overall dimensions of the Electric Cargo Tricycle are 2900\*1050\*1650mm, making it compact enough to maneuver through narrow streets and alleys.

The Electric Cargo Tricycle is equipped with a reliable brake system that includes a front disc and rear drum brake. This ensures that you can stop the vehicle quickly and safely, even when carrying heavy loads. The brake system is easy to maintain, making it the perfect choice for businesses that require frequent transportation of goods.

The Electric Cargo Tricycle is also designed with a spacious cabin that can be used to transport goods of different sizes and shapes. This makes it the perfect choice for businesses that require frequent transportation of items such as groceries, furniture, and other heavy-duty goods.

If you're looking for an efficient, reliable, and sturdy mode of transportation, the Electric Cargo Tricycle is the perfect choice for you. With its powerful Controller, maximum speed of 25KM/H, minimum ground clearance of 150mm, overall dimensions of 2900\*1050\*1650mm, and reliable brake system, this electric cargo bike is the perfect choice for businesses and individuals who require a reliable and efficient mode of transportation. Get your Electric Cargo Tricycle today and start transporting your goods with ease!

#### Technical Parameters:

Product Name	3 Wheel Electric Cargo Tricycle
Brake System	Front Disc Rear Drum
Max Speed	25KM/H
Wheel Type	Front 3.75-12, Rear 4.0-12
Controller	72V 2000-3000W
Motor	2000-3000W
Max Rated Load	500 Kg
Min Ground Clearance	150mm
Battery	72V52Ah/58AH Lead-acid Battery
Light	LED
Overall Dimension	2900*1050*1650mm
Product Type	Cabin Tricycle

#### Applications:

The cargo bike comes with a powerful 2000-3000W motor that can handle heavy loads with ease. It is equipped with a 72V52Ah/58AH lead-acid battery that provides enough power to cover long distances without worrying about recharging. With a charging time of 6-8 hours, you can recharge the battery overnight and begin your deliveries the next day.

The front fork of the electric cargo tricycle is hydraulic, making it easier to navigate through rough terrain. The wheel type is front 3.75-12 and rear 4.0-12, which is perfect for carrying heavy loads. The cargo bike's design ensures that it has a low center of gravity, making it stable and easy to maneuver even when carrying heavy loads.

The SG-Banpeng-Box electric cargo tricycle is ideal for small businesses that need to transport goods and materials over short distances. It is perfect for food delivery, courier services, and any other business that requires a reliable and efficient mode of transportation. The cargo bike is also suitable for personal use, especially for individuals who need to carry heavy loads over short distances.

The minimum order quantity for the SG-Banpeng-Box electric cargo tricycle is 10 pieces, with a delivery time of 40-50 days. This makes it a perfect fit for businesses that need to order in bulk and plan their deliveries in advance. The cargo bike's durability ensures that it can withstand the wear and tear of frequent use, making it a valuable investment for any business.

In summary, the SG-Banpeng-Box electric cargo tricycle is a reliable and efficient mode of transportation for businesses and individuals alike. Its powerful motor, long-lasting battery, and sturdy design make it a perfect fit for businesses that need to transport goods and materials over short distances. The cargo bike is also suitable for personal use, especially for individuals who need to carry heavy loads over short distances. Order now and enjoy the benefits of owning an eco-friendly and efficient cargo bike.

#### Customization:

The overall dimensions of the tricycle are 2900\*1050\*1650mm, and it is powered by a 72V 2000-3000W controller. The tricycle has a minimum ground clearance of 150mm and a front disc rear drum brake system. Additionally, it comes equipped with a hydraulic front fork.
