aluminum alloy frame retro style electric bike

Product Description

EX-102 Aluminum Alloy Frame Fat Tire Retro Style Electric Mountain Bike for Mountain Exploration 60 Lbs

Product Description:

One of the standout features of this bike is its LCD 5 Modes Digital Display, which allows you to easily monitor your speed, battery life, and other important metrics while you ride. This display is easy to read and understand, making it a great choice for riders of all skill levels.

The Kenda 20"X4.0" tires on this bike are another standout feature, offering excellent grip and stability on a variety of surfaces. Whether you're riding on gravel, mud, or pavement, these tires will help you stay in control and maintain your speed.

The 7-speed Shimano Gearing System on this bike is also worth noting, as it allows you to easily shift gears and adjust your speed to match your terrain and riding conditions. This system is reliable and easy to use, making it a great choice for riders who want to customize their riding experience.

The speed sensor on this bike is another great feature, as it helps you maintain a consistent speed and avoid accidents or mishaps while on the road. This sensor is accurate and reliable, making it a must-have for riders who want to stay safe and in control at all times.

Finally, the battery on this bike is a 48V15Ah LG Cell Lithium Battery, which provides plenty of power and range for long rides and adventures. This battery is easy to remove and replace, making it a great choice for riders who want to extend their time on the road without worrying about running out of juice.

Overall, the Fat Tire Electric Hunting Bike is a fantastic choice for anyone who wants a powerful and reliable folding fat tire electric bike that can handle a wide range of riding conditions and terrains. With its impressive specs and features, this bike is sure to provide an exhilarating and enjoyable ride every time you take it out.
