## Product Description

### KDF-E-SPARK 36V 10Ah Aluminum Alloy Frame Road Electric Bicycle With 25km/H Max Speed

#### Product Description:

The Road Electric Bike is equipped with a 36V 10Ah battery that provides a range of 30-50km on a single charge. This means that riders can enjoy longer rides without worrying about running out of power. The battery can be fully charged in just 5-6 hours, making it a convenient option for those who are always on the go.

One of the key features of the Road Electric Bike is its all-terrain capability. Whether you're riding on rough roads or paved streets, this electric bike can handle it all. Its sturdy frame and powerful motor make it an ideal choice for those who want to explore different terrains. The Road Electric Bike is also a great choice for those who are looking for a touring electric bicycle. Its long-range capability and comfortable seating make it an ideal choice for long-distance rides. The bike's adjustable seat and handlebars ensure that riders can find a comfortable and ergonomic position, even on longer rides.

In addition to its touring capabilities, the Road Electric Bike is also a great choice for trekking. Its all-terrain capabilities and long-range make it an ideal choice for those who want to explore off the beaten path. Whether you're looking to explore mountain trails or rural roads, this electric bike can handle it all.

In summary, the Road Electric Bike is a versatile and efficient mode of transportation that is perfect for commuting, touring, and trekking. With its 36V 250W motor, 36V 10Ah battery, and all-terrain capabilities, riders can enjoy a comfortable and convenient ride on any terrain. So why wait? Get your Road Electric Bike today and start exploring!
