Product Description

KDF-GO BRAVO 606 Aluminum Alloy Frame 48V 500W LCD Display Fat Tire Electric Bike with 48V 13Ah Battery

Product Description:

The LCD display on this Electric Bike provides all the information you need, including battery life, speed, and distance traveled. The display is easy to read, even in bright sunlight, making it simple to keep track of your progress.

The frame of this Fat Tire Electric Bike is made from lightweight aluminum alloy, which makes it easy to maneuver and transport. The bike is also equipped with a powerful motor, which can help you climb steep hills with ease.

With a range of 60-70KM, this Fat Tire Electric Bike is perfect for long rides through the countryside or exploring new trails. The 48V 13Ah battery provides plenty of power, ensuring that you can explore for hours without needing to recharge.

The 26 inch*4.0 fat tire on this Electric Bike provides excellent traction on any terrain, making it perfect for exploring off-road trails. The tire is designed to provide a stable ride, even on uneven terrain, ensuring that you can explore with confidence.

In summary, the Fat Tire Electric Bike is an excellent choice for anyone who loves to explore the great outdoors. With its powerful motor, long range, and fat tire, this Electric Bike is perfect for navigating any terrain. The lightweight aluminum alloy frame makes it easy to maneuver and transport, while the LCD display provides all the information you need to keep track of your progress.

Technical Parameters:

Applications:

Looking for a fun and eco-friendly way to commute to work or school? The KDF-GO BRAVO 606 is a great choice. With its powerful electric motor and 7-speed Shimano gears, you can easily tackle hills and long distances without breaking a sweat. The comfortable CDC saddle and 26 inch*4.0 fat tires provide a smooth and stable ride, even on rough terrain. The LCD display also allows you to track your speed, distance, and battery life.

If you're an outdoor enthusiast, the KDF-GO BRAVO 606 is perfect for exploring new trails and off-road adventures. The fat tires provide excellent traction and stability, while the lightweight aluminum alloy frame ensures durability and maneuverability. Whether you're riding through the mountains or cruising along the beach, this electric bike will provide you with a thrilling and unforgettable experience.

The KDF-GO BRAVO 606 is also a great choice for those who want to reduce their carbon footprint and contribute to a cleaner environment. By choosing an electric bike over a traditional gas-powered vehicle, you can significantly reduce your carbon emissions and save money on gas. With a minimum order quantity of 10 pcs and a delivery time of 40-50 days, you can easily purchase this eco-friendly and cost-effective mode of transportation for your family or business.

In summary, the KDF-GO BRAVO 606 is a versatile and reliable fat tire electric bike that is perfect for various occasions and scenarios. Whether you're commuting to work, exploring new trails, or reducing your carbon footprint, this electric bike is a great choice. So why wait? Order yours today and experience the thrill of riding a KDF-GO BRAVO 606!
