Product Description

Product Description:

Our Cycling Glasses are made from TR90, a strong and durable material that is perfect for active lifestyles. This material is flexible, lightweight, and highly impact-resistant, making it the perfect choice for those who need glasses for bike rides. The wraparound frame shape ensures a comfortable and secure fit, so you won't have to worry about your glasses slipping off while you're on the move. The lenses of our Cycling Glasses are made from TAC, a high-quality material that offers excellent clarity and UV protection. These lenses are also interchangeable, so you can easily switch them out depending on the conditions you're riding in. Whether you need clear lenses for low-light conditions or polarized lenses for bright, sunny days, our Cycling Glasses have you covered. In addition to their functional design, our Cycling Glasses also look great! The wraparound frame shape and sleek design make these glasses a stylish accessory for any cycling outfit. Plus, with a range of lens colors to choose from, you can customize your look to match your personal style. So if you're looking for the ultimate in eye protection safety glasses for your next bike ride, look no further than our Cycling Glasses. With their durable TR90 frame, high-quality TAC lenses, and interchangeable design, these glasses are the perfect choice for any cyclist. Order yours today!

Applications:

The OBL-922 cycling glasses are designed to fit perfectly and securely, thanks to their adjustable design. Whether you have a small or large head, you can adjust the glasses to fit comfortably and stay in place during your ride. This means you won't have to worry about them slipping or falling off during a bumpy ride or quick turn.

One of the best features of the OBL-922 cycling glasses is their interchangeable lenses. This means you can swap out the lenses depending on the lighting conditions or your personal preference. Whether you need a clear lens for low light or a polarized lens for bright sunshine, you can easily change them out to suit your needs.

Despite their durable and sturdy construction, the OBL-922 cycling glasses are lightweight, weighing in at only 26g. This means you won't feel weighed down or uncomfortable during your ride, no matter how long it lasts.

The wraparound frame shape of the OBL-922 cycling glasses provides maximum coverage and protection from the sun and wind. This means you can ride with confidence and focus on the road ahead, without worrying about glare or debris getting in your eyes.

The OBL-922 model is perfect for a range of cycling occasions and scenarios. Whether you're a competitive cyclist, a weekend warrior, or just enjoy leisurely rides, these sunglasses for sports will help you perform at your best. With a delivery time of 40-50 days, you can stock up on these amazing glasses in advance and be ready for any adventure that comes your way.
