Product Description

YCD-S3 LCD Display Kids Electric Scooter with 6.5-inch Tires 14 KM/H Speed 2-3 Hour Charging Time

Product Description:

This Electric Stand Up Scooter comes in three different colors: Pink, Blue, and Black. This ensures that your child can choose a color that they love and that matches their personal style. The sleek and modern design of the scooter is sure to turn heads and make your child feel cool and confident as they glide around on it.

The Kids Electric Scooter has both an electric brake and a fender brake, so your child can stop quickly and safely whenever necessary. The electric brake is located on the handlebars, while the fender brake is located on the rear wheel. This dual brake system ensures that your child can stop quickly and safely, even at high speeds.

While the Kids Electric Scooter does not have any suspension, it is still a smooth and comfortable ride. The large wheels and sturdy frame help to absorb bumps and vibrations, so your child can enjoy a smooth ride even on rough terrain. Additionally, the lightweight design of the scooter makes it easy for your child to carry and transport when necessary.

The Kids Electric Scooter has a charging time of 2-3 hours, which means your child can spend less time waiting for it to charge and more time enjoying the ride. The scooter also has a long battery life, so your child can ride for longer periods of time without needing to recharge it.

In conclusion, the Kids Electric Scooter is a fun and convenient way for your child to get around and explore their neighborhood. With its electric brake and fender brake, dual color options, and speedy 14 KM/H maximum speed, this Electric Powerful Scooter is sure to provide your child with hours of fun and adventure.

Speed	14 KM/H

Applications:

These scooters are perfect for various occasions and scenarios such as family outings, picnics, birthday parties, and park visits. They can be used for short commutes to school, the local store, or a friend's house. The YCD-S3 electric kick scooter comes with a maximum speed of 14 KM/H, which makes it safe for kids to ride and enjoy the scenery.

The scooter is manufactured in China, and the product quality is top-notch. The YCD-S3 electric kick scooter is designed to suit the needs of children, making it easy to handle and operate. The LCD display helps to monitor the battery life and distance traveled, so the kids can know when to recharge the battery. The 24V 1.0AH battery capacity is enough to power the scooter for several hours, depending on the terrain and usage.

The 6.5-inch tires provide excellent traction on various terrains such as concrete, asphalt, and gravel. The tires are also durable and can withstand the rough and tumble of outdoor play. While the YCD-S3 electric kick scooter is not suspended, the tires help to absorb some of the shock, making the ride smoother.

The packaging details for the YCD-S3 scooter are 760*220*340mm. The minimum order quantity is ten pieces, and the delivery time is between 40-50 days. Parents can order the scooters in bulk for their kids and their friends, making it a great gift for birthdays or special occasions.

In conclusion, the YCD-S3 is an excellent 2 wheel electric scooter that is perfect for kids who love to play outside. The scooter is easy to operate, safe, and provides hours of entertainment. Parents can rest easy knowing that their kids are getting exercise and enjoying the outdoors.
