Product Description

YCD-Volcano LCD Display Aluminum Alloy 26*2.1 Electric Bike with SHIMANO 21-SPEED Derailleur

Product Description:

The LCD display on the Road Electric Bike provides riders with real-time information about their speed, distance traveled, battery life, and more. This makes it easy to keep track of your progress and adjust your riding style accordingly.

The Road Electric Bike features 26*2.1 tires, which are designed to provide excellent traction and stability on a variety of surfaces.

Whether you're riding on smooth pavement or rugged off-road trails, these tires will help you stay in control at all times.

The RPT-730A front and rear mechanical disc brakes on the Road Electric Bike provide reliable stopping power, even at high speeds.

This makes it easy to slow down or come to a complete stop whenever you need to, giving you complete control over your ride.

The SHIMANO 21-speed derailleur on the Road Electric Bike allows riders to easily switch between gears, making it easy to tackle hills, speed up on flat terrain, or maintain a steady pace on long rides. This makes it a great choice for riders who want a bike that can handle a variety of terrains and riding conditions.

Overall, the Road Electric Bike is a great choice for anyone who wants a high-performance electric bike that can handle both street and cross-country riding. With its powerful motor, reliable brakes, and versatile tires, this bike is sure to provide a smooth and enjoyable ride every time.

Technical Parameters:

Tires	26*2.1
Battery	48V 10.4Ah
Frame Material	Aluminum Alloy
Kickstand	Side Kickstand
Brakes	RPT-730A Font & Rear Mechanical Disc Brakes
