Product Description

YCD-Hauler Aluminum Alloy Frame Cargo EBike with Lishui Controller Li ion 48V 15AH Battery

Product Description:

One of the standout features of the Cargo EBike is its MLO suspension fork, which provides a smooth and comfortable ride even on bumpy roads. This means that you can transport your cargo without worrying about any damage or jostling.

The Cargo EBike also comes with a side kickstand, which makes it easy to park and unload your cargo. This kickstand is sturdy and reliable, ensuring that your bike stays upright and secure while you load and unload.

The Cargo EBike is powered by a Li-ion 48V 15AH battery, which provides plenty of power for even the heaviest loads. This battery is long-lasting and reliable, giving you the peace of mind that comes with knowing that you won't run out of power while you're on the job. The Shimano 7 speed derailleur is another great feature of the Cargo EBike. This derailleur makes it easy to switch between gears, allowing you to tackle hills and other obstacles with ease. It also ensures that your cargo is delivered safely and quickly, no matter what the terrain.

The Cargo EBike is available in white, giving it a clean and professional look that is sure to impress. Whether you're using it for work or play, this bike is sure to turn heads and get the job done.

In summary, the Cargo EBike is a heavy-duty and reliable custom cargo bike that is perfect for anyone who needs to transport large items on a regular basis. With its MLO suspension fork, side kickstand, Li-ion 48V 15AH battery, Shimano 7 speed derailleur, and white color, this bike is sure to meet all of your needs and exceed your expectations.

Applications:

Below are some of the product application occasions and scenarios:

Delivery Services: The YCD-Hauler is perfect for delivery services. With its large cargo space, it can carry packages, food, and other goods over long distances. Its 48V 750W motor power provides enough torque to carry heavy loads. Delivery companies can take advantage of this e-bike to deliver their goods efficiently and quickly.

Urban Transportation: With the increasing traffic congestion in urban areas, the YCD-Hauler offers a great alternative to cars. It can navigate through traffic easily and can carry passengers or goods without any hassle. Its MLO Suspension FORK ensures a smooth ride on bumpy roads.

Commercial Use: Small businesses can use the YCD-Hauler to transport their goods to different locations. It provides a cost-effective and eco-friendly transportation solution. It also offers a great way for street vendors to transport their goods from one place to another.

Courier Services: Courier companies can use the YCD-Hauler to transport documents, parcels, and other items. Its large cargo space can accommodate multiple packages, making it an efficient way to transport goods.

The YCD-Hauler is a versatile and durable 2 wheel cargo motorcycle that is ideal for various applications. Its white color makes it stand out, and its powerful motor ensures that it can handle heavy loads. If you're looking for a custom cargo bike for your business or personal use, the YCD-Hauler is an excellent choice.

Customization:

YCD-Hauler is a heavy-duty cargo e-bike designed to carry heavy loads with ease. This 2-wheel cargo motorcycle is perfect for last-mile delivery, logistics, and transportation. Made from high-quality aluminum alloy, this e-bike is strong, durable, and built to last.

The YCD-Hauler comes with a powerful 48V 750W motor that provides enough power to carry heavy loads with ease. The MLO suspension fork ensures a smooth and comfortable ride, even on rough terrain. The 26-inch*3.0 tire size provides excellent traction and stability, making it easy to maneuver through busy streets.

The YCD-Hauler comes with a TFT display that shows important information such as speed, distance traveled, battery life, and more. This e-bike is customizable to meet your specific needs. We offer product customization services to help you personalize your e-bike to your exact specifications.

Our YCD-Hauler is manufactured in China and has a minimum order quantity of 10 pcs. The delivery time is 40-50 days.

Whether you are delivering goods or transporting heavy cargo, the YCD-Hauler is the perfect solution. Contact us today to learn more about our product customization services.
