Product Description

YCD-Ranger 26*3.0 Tires 48V 15Ah Battery Electric Bicycle with TFT Display and Aluminum Alloy Frame

Product Description:

The frame of the Road Electric Bike is made from high-quality Aluminum Alloy. This makes the bike lightweight, durable, and easy to handle. The MLO Suspension Fork provides a smooth ride over any terrain, whether you're commuting to work or taking a leisurely ride through the park.

The Road Electric Bike comes equipped with a TFT display that shows you important information such as speed, distance traveled, and battery life. This Commuter Electric Road Bike also has a pedal assist system that helps you conserve energy and makes riding uphill a breeze.

Whether you're using the Road Electric Bike for commuting or leisure, this Commuter Electric Road Bike is perfect for any occasion. You can easily switch between pedal assist mode and throttle mode to suit your needs.

The Road Electric Bike also comes with a powerful and long-lasting lithium-ion battery that can be charged in just a few hours. This means you can spend more time riding and less time waiting for your battery to charge.

In summary, the Road Electric Bike is a versatile and reliable electric bike that is perfect for anyone who wants to explore the world in an eco-friendly way. The bike's lightweight aluminum alloy frame, MLO Suspension Fork, and powerful 36V 750W motor make it perfect for commuting or leisurely rides. The TFT display and pedal assist system also make it easy to monitor your speed, distance, and battery life. So why wait? Get your Road Electric Bike today and start exploring!
