## Product Description

### BSE-PH05B ZS 125 Air Cooled 4-Gear Off Road Dirt Bike With Fat Steel Handlebar

#### Product Description:

The Dirt Bike is equipped with a reliable PZ26 carburetor that ensures smooth fuel delivery and optimal engine performance. This carburetor is designed to provide precise fuel and air mixture, which is essential for the smooth operation of the motorcycle.

The Swing arm of the Off Road Motorcycle is made of high-strength steel, which makes it strong enough to withstand the rigors of off-road riding. The swing arm is an important part of the motorcycle's rear suspension system and helps provide better traction and stability on uneven terrain.

The Fuel tank of this Dirt Bike has a capacity of 5.2 liters, which is sufficient for long rides in remote areas. The fuel tank is located in the center of the motorcycle, which helps to distribute the weight evenly and provides greater balance and stability.

The Gear ratio of the Off Road Motorcycle is 420-15/41, which is optimized for off-road riding. This gear ratio provides the ideal balance between torque and speed, making it easier for riders to navigate through rough and uneven terrain.

Overall, the Off Road Motorcycle is a reliable and powerful dirt bike that is perfect for off-road enthusiasts who love to explore new trails and challenging terrains. Whether you are a seasoned rider or a beginner, this trail bike is perfect for anyone who loves the thrill of off-road riding.
