Product Description

XJ-Bike2Share III Premium Single Speed Alloy Frame Sharing Bike With Rear Solar Light 26*1.5 Tire And PU Saddle

Product Description:

The frame of the Sharing Bike is made from high-quality alloy, making it durable and lightweight. The front drum and rear servo brakes provide excellent stopping power, ensuring that you can stop quickly and safely.

One of the standout features of the Sharing Bike is the lock. You can choose between an Intelligent Horseshoe Type lock or a LoT Plus Electronic Servo Brake Lock. Either option will keep your bike secure when you're not riding it, giving you peace of mind.

Another great feature of the Sharing Bike is the lights. The rear solar light and headlight ensure that you can see and be seen, even in low light conditions. This is especially important if you plan on using the bike for commuting or other city activities.

The Sharing Bike is perfect for those who want a reliable and efficient mode of transportation. With its sturdy frame, reliable brakes, and secure lock, you can ride with confidence knowing that your bike is up to the task.

Whether you're commuting to work or just cruising around town, the Sharing Bike is the perfect choice. So why wait? Get your Sharing Bike today and start enjoying all the benefits of a 2 Wheel City Bike!

Technical Parameters:

Brakes	Front Drum And Rear Servo Brakes
Frame	Alloy
Seat post	Adjustable Lever
Lock	Intelligent Horseshoe Typelock Or LoT Plus Electronic Servo Brake Lock
Saddle	PU
Tire	26*1.5
Basket	Front Alloy Basket
Weight	21.5 Kg
Color	Blue
Light	Rear Solar Light & Head Light

Applications:

The front alloy basket is perfect for carrying small items, making it an ideal choice for those who need to run errands or commute to work. The bike's single speed makes it easy to ride, while the front and rear servo brakes ensure that riders can safely stop the bike when they need to.

The XJ-Bike2Share III premium is perfect for a range of different occasions and scenarios. It is an ideal choice for bike share programs in cities, as it is designed to be easy to use and durable enough to withstand frequent use. The bike is also great for individuals who want to use it for commuting or running errands around town. Its front alloy basket makes it easy to carry small items, making it a convenient choice for those who need to transport items from one place to another.

The bike's rear solar light and headlight make it safe to ride at night, which is perfect for those who need to commute to and from work when it is dark outside. Additionally, the bike's single speed makes it easy to ride, even for those who are not experienced cyclists. The front and rear servo brakes ensure that riders can safely stop the bike when they need to, which is important when riding in busy urban areas.

In conclusion, the XJ-Bike2Share III premium is a great choice for anyone who is looking for a high-quality, durable, and easy-to-use bike. It is perfect for a range of different occasions and scenarios, including bike share programs in cities, commuting, and running errands around town. With its front alloy basket, rear solar light, headlight, and servo brakes, it is a safe, convenient, and practical choice for anyone who needs a reliable bike.
