## Product Description

### XJ-e Bike2Share III 36V 250W Anti Theft Electric Bike with 70Km Range Hiten Fork and PU Saddle

#### Product Description:

The Sharing Electric Bike is designed for comfort and convenience with a PU saddle that ensures a comfortable ride even on bumpy roads. The Hiten Rigid Fork provides stability to the bike and makes it suitable for urban commuting. Its lightweight Aluminum Alloy Frame makes it easy to handle, and the 22\*1.5 wheel size ensures a smooth ride.

But what sets this Electric City Bicycle apart is its powerful 36V 13Ah battery. This battery provides enough power to cover a distance of 25-30 miles on a single charge. The battery is also removable, making it easy to recharge and replace.

The Sharing Electric Bike is designed with the sharing economy in mind. It is perfect for commuters who need to travel short distances to work or run errands. Its compact design makes it easy to store, and its low maintenance means you can focus on your daily activities without worrying about bike upkeep.

In conclusion, the Sharing Electric Bike is a perfect solution for environmentally-conscious individuals who want to travel quickly and efficiently without adding to the city's pollution. With its powerful battery and lightweight design, this Electric City Bicycle is sure to make your daily commute more comfortable and convenient.

Motor	36V 250W
Battery	36V 13Ah
Fork	Hiten Rigid Fork
Max Speed	25 Km/h
Frame Material	Aluminum Alloy
Range	70 Km
Color	Blue
Speed	Speed Sensor
Type	Electric Bike

#### Applications:

For urban commuters, the XJ-e Bike2Share III is a great option for getting around the city quickly and efficiently. With its electric motor, riders can easily navigate through traffic and avoid the hassle of finding parking. Plus, with the sharing feature, riders can easily rent and return the bike at designated locations, making it an ideal solution for those who don't want to own their own bike.

For tourists and sightseers, the XJ-e Bike2Share III is a great way to explore a new city or town. The electric motor allows riders to cover more ground and see more sights than they would on foot. Plus, with the sharing feature, riders can easily rent a bike for a few hours or a day and return it when they're done, making it a convenient and affordable option for travelers.

For fitness enthusiasts, the XJ-e Bike2Share III is a great way to get some exercise while still enjoying the outdoors. The electric motor can be used to assist riders on uphill climbs or to help them maintain a steady pace on longer rides. And with the sharing feature, riders can easily rent a bike for a workout and return it when they're done, without having to worry about storing or maintaining their own bike.

Overall, the XJ-e Bike2Share III is a versatile and convenient 2 wheel electric bike that is perfect for a variety of occasions and scenarios. With a minimum order quantity of 10 pcs and a delivery time of 40-50 days, this sharing electric bicycle is a great option for bike sharing programs, urban rental companies, and more.
