## Product Description

### BSE-PH15A Steel Frame Off Road Motorcycle With Forged Alloy Triple Clamp

#### Product Description:

Equipped with a MOJO CB 150 engine, this off-road bike is air-cooled and features a 5-gear transmission, delivering a powerful performance of 7.5kw/ 8500rpm. The engine can be started with both an electric start and a kick start, ensuring that you are always ready to go. The PZ27 carburetor ensures that the engine is running smoothly and efficiently, even in the toughest conditions.

The steel frame of the motorcycle provides a sturdy and durable foundation, capable of withstanding the harsh terrain of off-road riding. The seat height of 860mm allows for a comfortable riding position, ensuring that you can ride for longer periods without any discomfort. The triple clamp of the motorcycle is made from forged alloy, providing additional strength and stability to the front end of the bike. This ensures that the bike can handle any obstacles that come its way and can navigate through rough terrain with ease.

Whether you are an experienced rider or a beginner, this trail bike is perfect for anyone who loves off-road riding. With its powerful engine, sturdy frame, and reliable components, this motorcycle can take on any challenge and provide an exhilarating off-road experience.

#### Technical Parameters:

Cross-country Motorcycle Technical Parameters

#### Applications:

The BSE-PH15A is designed specifically for off-road use, making it the perfect choice for adventure-seekers who want to explore the great outdoors. With its powerful engine, this motorbike is capable of tackling even the toughest terrain, allowing riders to go places that other vehicles simply can't.

One of the standout features of the BSE-PH15A is its forged alloy triple clamp, which provides unparalleled stability and control even on the most challenging trails. The seat height of 860mm is also designed with off-road use in mind, allowing riders to easily navigate rocky terrain and high obstacles.

The engine of the BSE-PH15A is a MOJO CB 150 that is air-cooled and capable of producing 7.5kw/ 8500rpm. It is also equipped with a 5-gear system and E&kick start, ensuring that riders have plenty of power and control at their fingertips. The carburetor is a PZ27, which is known for its reliability and durability, and the fuel tank has a capacity of 6.5L, allowing riders to travel long distances without needing to refuel.

If you're looking for a motorbike that can handle rugged terrain and take you on unforgettable adventures, the BSE-PH15A is the perfect choice. With a minimum order quantity of just 10 pieces and a delivery time of 40-50 days, this high-quality motorbike is a great investment for anyone who loves off-road exploration.
