- Highlight: **steel frame off road motorcycle oem,  
8l fuel tank off road motorcycle**

## Product Description

### BSE-X6 Steel Frame Off road Motorcycle with 1460mm Wheel Base and 940mm Seat Height

#### Product Description:

Equipped with a rugged TYX250R engine, this Dual Sport Motorcycle delivers an impressive 24.3KW of power at 9000r/min. The water-cooled engine is designed to keep temperatures low, ensuring optimal performance at all times. With 6-gear transmission and electric start, you can easily switch gears and start the engine with ease.

The Off-road Motorcycle comes with a forged aluminum triple clamp, adding strength and durability to the overall design. The alloy rim wheels, sized at 1.6-21 in the front and 2.15-18 in the rear, are designed to withstand the toughest terrains. The front tire is 80/100-21, and the rear tire is 110/90-18, providing optimal traction and stability on any surface.

With a gear ratio of 520-13/49, this Dual Sport Motorcycle is capable of reaching impressive speeds while maintaining a smooth ride. The Off-highway Motorcycle is designed to deliver a powerful and exhilarating ride, making it the perfect choice for any adventure seeker. In summary, the Off-road Motorcycle is a Dual Sport Motorcycle designed for those who seek adventure and thrill. With its impressive clearance, powerful engine, durable design, and exceptional features, this Off-highway Motorcycle is the perfect choice for any rider looking to conquer any terrain with ease.
