Brake Set	F/R Mechanical Disc Brake, TEKTRO, with Electric Brake Levers

Applications:

With a weight of 52kg and dimensions of 244x65x87cm, the XJ-Cargo BC04 can carry a load of up to 300kg. It has a distance range of 50km, which makes it perfect for short-distance cargo transportation. The cargo bike features a steel TIG welded fork that is strong and durable, making it ideal for carrying heavy loads.

The XJ-Cargo BC04 is equipped with a Shimano Tourney 7-speed gear set that makes it easier to navigate through different terrains. The cargo electric bike is powered by a 350W motor that provides sufficient power to carry heavy loads. The cargo bike is perfect for businesses that require efficient and reliable cargo transportation for their day-to-day operations.

The XJ-Cargo BC04 is made in China, and the minimum order quantity is 10 pcs. The delivery time is 40-50 days, which makes it ideal for businesses that need to plan in advance. The cargo electric bike is suitable for businesses such as courier services, food delivery, and logistics companies.

Overall, the XJ Cargo Electric Bike is an excellent investment for businesses that require a heavy-duty cargo truck for their operations. It is a custom cargo bike that is designed to cater to the specific needs of businesses and is built to last. The cargo electric bike is reliable, efficient, and easy to use, making it the perfect solution for businesses that require cargo transportation.
