Product Description

Red EEC:L1e-B Certificate 72V 20Ah Lead Acid 2000W Motor Power City Ebike

Product Description:

Introducing the EEC L1e-B electric city bike, a blend of power, efficiency, and style designed for the modern urban rider. Powered by a robust 2000W motor and a reliable 72V20AH lead-acid battery, this bike offers an exhilarating top speed of 45 km/h and a generous range of 40-60 km per charge. Whether you're commuting through city streets or taking on longer journeys, the EEC L1e-B provides the performance you need. Comfort and safety are at the forefront of its design. The hydraulic front fork ensures a smooth ride over various surfaces, while the combination of front disc and rear drum brakes delivers dependable stopping power. The 90/80-12 inch tires provide excellent grip and stability, and the built-in LED light enhances visibility for those evening rides. Practicality meets durability with the EEC L1e-B's sturdy frame, measuring 1865mm x 685mm x 1100mm and supporting up to 250 kg. This city bike is equipped with features like a reverse function for easy maneuvering and a rear-view mirror for added safety. Its advanced 12 mosfets controller ensures smooth acceleration and reliable performance. Charging is convenient with a time frame of just 6-8 hours, and for those seeking even greater efficiency, there's an optional 72V20AH lithium battery available. Embrace the perfect combination of power, comfort, and practicality with the EEC L1e-B electric city bike and transform your urban travel experience.

Technical Parameters:

Product Attribute	Value
Product Name	City E-bike
Max Speed	45Km/h
Battery	72V 20Ah Lead acid (Optional : Lithium Battery 72V 20Ah)
Motor power	2000W
Max rated load	250 KG
Tire size	F/R 90/80-12inch
Front fork	Hydraulic
Light	LED
Brakes	Front disc Rear drum
Max range per charger	40-60km
Rear-view mirror	Yes

Applications:

The SG-EGO-01 is built for those who need power and versatility in their electric vehicle. With a robust 2000W motor and a 72V20AH lead-acid battery, it reaches speeds up to 45 km/h and offers a range of 40-60 km per charge. Its dimensions are 1865mm x 685mm x 1100mm, accommodating up to 250 kg of load.

The vehicle features a hydraulic front fork and a combination of front disc and rear drum brakes for dependable stopping power. The 90/80-12 inch tires ensure excellent stability and handling. Additional features include LED lights for improved visibility, a reverse function for added convenience, and rear-view mirrors for enhanced safety.

With a charging time of 6-8 hours, it's designed for practicality and efficiency. The SG-EGO-01 also offers the option to upgrade to a 72V20AH lithium battery for extended performance. Perfect for urban commuting or light cargo, the SG-EGO-01 is a reliable and versatile choice.

Customization:

Looking for a high-performance electric scooter tailored to your needs? Check out SG-EGO-01 model. Crafted in China, the SG-EGO-01 features a powerful 2000W motor and a 72V 20AH lead-acid battery, delivering speeds up to 45 km/h and a range of 40-60 km per charge. The scooter's sturdy construction supports a maximum load of 250 kg, with 90/80-12 inch tires ensuring stability on the road. Equipped with front disc and rear drum brakes, a hydraulic front fork, and a 12 mosfet controller, the SG-EGO-01 is designed for reliable performance. Additional features include LED lights, a reverse function, and rear-view mirrors. Charging time ranges from 6-8 hours.

Minimum order quantity is 10 units, with delivery in 40-50 days. Contact us to learn more about how we can customize the SG-EGO-01 to fit your needs.
