Product Description

48V 500W Motor Power 2.5-14 Tubeless Tire 25km/H Speed City Electric Ride With LED Light

Product Description:

Introducing the SG-Kuge, a perfect blend of efficiency and style for urban commuting. With a 48V500W motor, this scooter delivers a smooth ride at a top speed of 25 km/h, ideal for navigating city streets. The 48V20AH lead-acid battery provides a solid range of 60-80 km per charge, ensuring you can get through your day without frequent recharges.

The SG-Kuge is built for comfort and practicality. Its compact dimensions of 1530mm x 400mm x 850mm and 2.5-14 tubeless tires offer a nimble, stable ride, while the hydraulic front fork and front/rear drum brakes ensure a safe and smooth journey. The LED lights enhance visibility, and the straightforward 4-6 hour charging time means you're always ready to go.

Supporting a maximum load of 150 kg, the SG-Kuge combines reliability with ease of use, making it a great choice for those looking to upgrade their daily transportation with a blend of innovation and practicality.

Technical Parameters:

Product Attribute	Value
Product Name	City E-bike
Max Speed	25Km/h
Battery	48V 20Ah Lead acid
Motor power	48V 500 W
Max rated load	150 KG
Tire size	2.5-14 tubeless
Front fork	Hydraulic
Light	LED
Brakes	Front/Rear drum
Max range per charger	60-80 km
Controller	48V 9tubes

Applications:

The SG-Kuge is engineered for efficient urban mobility with its 48V500W motor, delivering a steady speed of up to 25 km/h. This makes it perfect for city commuting and short-distance travel. The 48V20AH lead-acid battery offers a substantial range of 60-80 km on a single charge, ensuring you can cover daily routes or longer errands without frequent recharges. The compact dimensions of 1530mm x 400mm x 850mm and 2.5-14 tubeless tires provide a nimble and stable ride in crowded city streets. Designed with comfort in mind, the SG-Kuge features a hydraulic front fork that smooths out bumps and uneven surfaces, making it ideal for both smooth pavements and minor rough patches. The front and rear drum brakes offer reliable stopping power, ensuring safe and controlled rides. The scooter can handle a maximum load of 150 kg, making it suitable for carrying personal items or groceries, enhancing its practicality for everyday use.

The scooter is equipped with LED lights to improve visibility during low-light conditions, contributing to safer rides. With a charging time of just 4-6 hours, the SG-Kuge ensures minimal downtime, allowing for quick turnaround between uses. Whether you're navigating through urban environments or running errands, this scooter combines ease of use with essential features, offering a dependable and user-friendly solution for city transport.

In summary, the SG-Kuge is a practical and reliable electric scooter designed for efficient urban travel. Its balanced performance, comfortable ride, and convenient features make it an excellent choice for those seeking a dependable mode of transport for daily routines and short trips.

Customization:

At SG-Kuge, we provide tailored solutions to ensure your electric scooter fits your exact requirements. Our scooter is equipped with a 48V500W motor and a 48V20AH lead-acid battery, delivering reliable performance. It features overall dimensions of 1530mm x 400mm x 850mm and 2.5-14 tubeless tires, supporting a maximum load of 150KG and a top speed of 25KM/H. The scooter comes with front and rear drum brakes, a 48V9-tube controller, LED lights, and a hydraulic front fork. With a charging time of 4-6 hours, it offers a range of 60-80KM per charge. Minimum order quantity is 10 units, packaging size is 1604590cm, and delivery time is 40-50 days.
