Product Description

800W Motor Power 60V 20Ah Lead Acid Battery High Speed City Electric Bike With LED Light

Product Description:

Step into a new realm of biking with the SG-XJH Electric Mountain Bike. Powered by a robust 800W/1000W motor, it delivers thrilling performance on diverse terrains, from rugged trails to city streets. The 60V/20AH lead-acid battery provides impressive range and efficiency, allowing for 40-60 kilometers of adventure on a single charge, with a recharge time of just 6-8 hours. Comfort and control are paramount with the SG-XJH. Its high-performance hydraulic front fork ensures a smooth ride over rough surfaces, while the 2.75-10 tubeless tires offer excellent handling and stability. With a maximum load capacity of 180 kg, the bike is perfect for both solo riders and those sharing the journey. The front disc brake and rear drum brake deliver reliable stopping power for enhanced safety.

Whether you're seeking high speeds or a leisurely ride, the SG-XJH caters to all. Reach speeds up to 42 km/h and enjoy the added safety of its LED lighting system for night rides. This electric mountain bike seamlessly combines performance with style, transforming each ride into an exhilarating experience.

Choose the SG-XJH for an exceptional blend of power, comfort, and innovation. Embrace a new way of riding that promises both thrill and reliability.

Product Name	City E-bike
Max Speed	25-42Km/h
Battery	60V 20Ah Lead acid
Motor power	800W / 1000W
Max rated load	180 KG
Tire size	2.75-10 tubeless
Front fork	Hydraulic
Light	LED
Brakes	Front disc Rear drum
Max range per charger	40-60 km
Controller	big 6tubes

Applications:

In the hustle and bustle of city life, the SG-XJH Electric City Ebike is your perfect partner. With a powerful motor that reaches up to 1000W, this scooter swiftly navigates through busy streets, making your commute smooth and enjoyable. Whether you're tackling your daily routine or heading out for a weekend adventure, the SG-XJH is designed to meet your diverse needs.

Equipped with a 60V/20AH lead-acid battery, the SG-XJH offers a range of 40-60 kilometers on a single charge, making it ideal for both urban travel and weekend trips. With a charging time of just 6-8 hours, you'll be ready to hit the road again after a short break, embracing the freedom of riding without delay.

The hydraulic front fork absorbs bumps and ensures a smooth ride, while the combination of front disc and rear drum brakes delivers reliable stopping power. The 2.75-10 tubeless tires provide excellent stability and shock absorption, allowing for a comfortable ride across various terrains.

The City ebike features a robust 6-tube controller, providing responsive and stable handling. The LED front light enhances safety during night rides, ensuring you stay visible while adding a touch of modern style. With a maximum load capacity of 180 kg, the SG-XJH easily accommodates passengers or extra luggage, offering flexibility for your travel needs. Its sleek design and durable build blend performance with aesthetics, making it a standout choice for anyone seeking both functionality and style. From city streets to weekend getaways, the SG-XJH excels in any setting. Its powerful motor and impressive range ensure a smooth, efficient ride in various conditions. For those who value a blend of high performance and modern design, the SG-XJH is the ultimate electric city ride.

Customization:

At SG-XJH, we provide customization services to ensure your electric motorcycle meets all your requirements. Our model features an 800W/1000W motor and a 60V/20AH lead-acid battery, offering robust performance. Equipped with front disc and rear drum brakes, LED lights, and a hydraulic front fork, it guarantees safety and comfort. With a maximum load of 180KG, speeds up to 42KM/H, and a range of 40-60KM per charge, it's designed for adventure. Minimum order quantity is 10 units, with packaging dimensions of 150x67x5cm and a delivery time of 40-50 days. Choose SG-XJH for your ultimate ride!
