## Product Description

### Creamy Yellow NAVI N4 Plus 20\*4.0 Tire 48V 14Ah Battery 45km/H High Speed Folding E-Bike

#### Product Description:

Introducing the NC-NAVI-N4+ Electric Folding Bike: the ultimate companion for urban adventures. This electric folding bike combines compact design with powerhouse performance, turning every journey into a stylish, efficient experience. Featuring a robust 20-inch aluminum alloy frame, the NC-NAVI-N4+ is both durable and portable. Its sturdy build supports a wide array of terrains, while its compact dimensions—1710mm x 1290mm x 610mm when fully assembled and just 450mm x 900mm x 1000mm when folded—make it perfect for city dwellers and commuters who value flexibility. Equipped with 20\*4.0 Kenda tires, this bike provides excellent grip on various surfaces, while the 160mm G3 disc brakes offer reliable stopping power. This ensures you can navigate both bustling city streets and scenic trails with confidence. With a range exceeding 60 kilometers on a single charge using the Pedal Assist System (PAS), the NC-NAVI-N4+ is built to keep up with your adventures. Motor options from a nimble 250W to a robust 750W allow you to tailor your ride to your needs, whether you're tackling steep hills or cruising smoothly through the city.

The bike offers versatile battery configurations to match different riding styles and range requirements. The main battery is a powerful LG 48V 14Ah, while the frame and seat batteries provide additional options, including LG 36V 20Ah or 48V 15Ah for extended trips. This flexibility ensures you'll never be left stranded.

Weighing just 33kg, the NC-NAVI-N4+ is light enough to carry yet robust enough for daily use. Its folding mechanism is smooth and intuitive, making it easy to stow away or transport, whether you're heading into a café or hopping on public transit.

The NC-NAVI-N4+ isn't just an electric bike; it's a gateway to a more convenient, enjoyable, and efficient lifestyle. Whether you're commuting, exploring, or simply having fun, this bike is designed to enhance your riding experience. Embrace the freedom of the ride with the NC-NAVI-N4+.

Motor	250W / 350W / 500W / 750W
Main Battery	LG 48V 14Ah
Battery Capacity	Frame BatteryLG 36V 14Ah or 48V 7Ah

#### Applications:

Introducing the NC-NAVI-N4+ Electric Folding Bike, where power meets practicality in a sleek, versatile design.

Engineered for both urban commutes and outdoor adventures, this bike stands out with its robust features and user-friendly design.

The 20-inch Aluminum Alloy frame of the NC-NAVI-N4+ combines durability with a lightweight build. This frame ensures a sturdy ride while remaining easy to handle and fold, making it perfect for both city commuting and recreational rides. Its design also provides excellent support for carrying extra gear or cargo.

Equipped with Kenda 20x4.0 tires, this bike offers superior grip and comfort. The 4.0-inch width provides additional stability and cushioning, ideal for tackling various terrains, including city streets, gravel paths, and uneven surfaces. Enjoy a smoother and more controlled ride, regardless of the conditions.

Featuring 160mm G3 Disc Brakes, the NC-NAVI-N4+ delivers exceptional stopping power. These brakes ensure safe and reliable performance, whether you're navigating busy traffic or descending steep inclines. The enhanced braking system contributes to a secure and confident riding experience.

With dimensions of 1710mm x 1290mm x 610mm when unfolded and a compact 450mm x 900mm x 1000mm when folded, the NC-NAVI-N4+ is designed for easy storage and portability. This folding mechanism is ideal for urban environments where space is limited, allowing you to store the bike in tight spots or transport it effortlessly.

The bike's Pedal Assist System (PAS) provides a range of over 60 kilometers on a single charge, making it perfect for long-distance commutes or weekend outings. Enjoy the flexibility of extended rides without worrying about frequent recharges. With a maximum speed of up to 45km/h, the NC-NAVI-N4+ offers a balance of speed and safety. This makes it suitable for faster commutes and longer journeys, while still complying with many local speed regulations.

Weighing 33kg, this bike is robust yet manageable. Its design accommodates the additional weight of larger tires and powerful motor options, while still being easy to handle and store when folded. Choose from 250W, 350W, 500W, or 750W motor options to match your riding preferences. The 750W motor is especially powerful, making it ideal for challenging terrains and faster acceleration. Tailor your riding experience with the motor that best suits your needs.

The NC-NAVI-N4+ offers a range of battery options to extend your riding capabilities:

Main Battery: LG 48V 14Ah, providing robust power for reliable performance.

Frame Battery: Available in LG 36V 14Ah or 48V 7Ah, offering additional flexibility for different range requirements.

Seat Battery: Choose between LG 36V 20Ah or 48V 15Ah for extended range and endurance.

The NC-NAVI-N4+ Electric Folding Bike is designed to meet the demands of various riding scenarios with its powerful

performance, robust features, and convenient folding design. Whether you're commuting, running errands, or exploring new routes, the NC-NAVI-N4+ offers a reliable and enjoyable riding experience. Embrace the versatility and performance of this exceptional electric folding bike.

**Customization:**

Introducing the NC-NAVI-N4+ Electric Folding Bike, a versatile and powerful option for all your commuting and adventure needs. Built with a 20-inch aluminum alloy frame, this bike offers a perfect balance of strength and lightness. The NC-NAVI-N4+ comes with Kenda 20x4.0 tires for superior comfort and stability, while the 160mm G3 disc brakes ensure reliable stopping power across various terrains. With a spacious size of 1710mm x 1290mm x 610mm and a compact folding size of 450mm x 900mm x 1000mm, it's designed for easy storage and transport. Enjoy a range of over 60 km in Pedal Assist System (PAS) mode and a maximum speed of under 45 km/h. The bike is available with motor options ranging from 250W to 750W, allowing you to choose the power that best suits your needs. Battery options include:  
Main Battery: LG 48V 14Ah  
Frame Battery: LG 36V 14Ah or 48V 7Ah  
Seat Battery: LG 36V 20Ah or 48V 15Ah
