## Product Description

### Magnesium Alloy 20 Inch 25km/H High Speed 48V 15Ah LG Battery Foldable E-Bike

#### Product Description:

Introducing the NC-PILOT-X1+, the sleek and versatile electric folding bike designed to transform your daily commute and weekend adventures. This innovative bike combines cutting-edge technology with a compact design to deliver an unparalleled riding experience.

Crafted with a 20-inch magnesium alloy frame, the NC-PILOT-X1+ strikes the perfect balance between strength and weight. The frame's lightweight nature, combined with the enhanced grip and durability of the Kenda 20 x 2.4 tires, ensures a smooth and stable ride across various surfaces. The 160mm G3 disc brakes provide reliable stopping power, giving you confidence and safety whether you're navigating busy streets or exploring new paths.

With dimensions of 1680mm in length, 600mm in width, and 1180mm in height, this bike offers a comfortable ride while still being compact enough for easy storage. When folded, it measures just 920mm x 400mm x 780mm, making it incredibly convenient to stow away or transport.

The NC-PILOT-X1+ excels in performance with a remarkable mileage of up to 80km in Pedal Assist System (PAS) mode, ensuring you can enjoy extended rides without frequent recharges. Its maximum speed of 25km/h is ideal for city commuting, aligning with most local regulations for a worry-free journey.

At just 21kg, the NC-PILOT-X1+ is remarkably lightweight and easy to carry when folded, perfect for those who need to take their bike on public transit or store it in tight spaces. Choose from motor options of 250W, 350W, or 500W to tailor the power output to your preferences and needs.

The bike features a high-capacity LG 48V 15Ah battery, delivering long-lasting and efficient performance. Coupled with a Naici sine wave controller, it ensures smooth and responsive handling, making every ride enjoyable and effortless.

The NC-PILOT-X1+ is more than just an electric bike—it's a gateway to a new level of convenience, performance, and style. Whether for your daily commute or leisurely rides, this bike offers everything you need for an exceptional riding experience. Elevate your journey with the NC-PILOT-X1+.

#### Technical Parameters:

Electric Folding Mountain Bike

Tire	Kenda 20 x 2.4
Brake	160mm G3 Disc Brak
Size	1680mm (L) x 600mm (W) x 1180mm (H)
Folding Size	920mm x 400mm x 780mm
Mileage	PAS > 80km
Max Speed	≤25km/h
Net Weight	21kg
Motor	250W / 350W / 500W
Battery Type	LG
Battery Capacity	48V 15Ah

#### Applications:

Introducing the NC-PILOT-X1+ Electric Folding Bike, a versatile and high-performance ride that seamlessly blends innovation with convenience. Whether you're navigating city streets or exploring new routes, the NC-PILOT-X1+ is engineered to deliver exceptional performance and ease of use.

The 20-inch Magnesium Alloy frame provides a perfect balance of strength and lightweight design. Magnesium alloy is known for its excellent durability and reduced weight compared to traditional materials, ensuring a sturdy ride while making the bike easy to handle and fold.

The bike is fitted with Kenda 20 x 2.4 tires, which offer superior grip and durability. The 2.4-inch width enhances stability and comfort, making it ideal for a variety of surfaces including city streets, gravel paths, and uneven terrain. Enjoy a smoother and more secure ride regardless of the conditions. Featuring 160mm G3 Disc Brakes, the NC-PILOT-X1+ ensures dependable stopping power. The robust braking system provides confidence and safety, whether you're commuting through busy areas or tackling more challenging routes. Its performance is tailored for both everyday use and demanding riding conditions.

With an unfolded size of 1680mm (L) x 600mm (W) x 1180mm (H) and a folding size of just 920mm x 400mm x 780mm, the NC-PILOT-X1+ offers exceptional portability. The compact folding design makes it easy to store in tight spaces or transport, perfect for urban living or frequent travel. In Pedal Assist System (PAS) mode, the NC-PILOT-X1+ can travel up to 80km on a single charge. This extended range makes it suitable for longer commutes, day trips, or leisurely rides, ensuring you have the freedom to explore without frequent recharging.

With a maximum speed of 25km/h, the NC-PILOT-X1+ meets the requirements of most local regulations. This speed is ideal for urban commuting and provides a good balance of performance and safety. Weighing just 21kg, this bike is notably lightweight, enhancing its portability and ease of handling. The reduced weight makes it simple to carry and maneuver, especially when folded for storage or transport. Choose from 250W, 350W, or 500W motor options to tailor the bike's performance to your needs. Whether you're looking for efficient city commuting or enhanced power for more demanding rides, the NC-PILOT-X1+ has a motor choice to match your requirements. Equipped with an LG 48V 15Ah battery and a Naici sine wave controller, the bike offers long-lasting performance and smooth handling. The sine wave controller ensures responsive and efficient power delivery, enhancing the overall riding experience.

The NC-PILOT-X1+ Electric Folding Bike is a perfect blend of innovation, convenience, and performance. Its advanced

features, lightweight design, and extended range make it an excellent choice for those seeking a reliable and versatile electric bike for both daily commutes and extended adventures. Experience the future of personal transportation with the NC-PILOT-X1+.

### **Customization:**

Introducing the NC-PILOT-X1+ Electric Folding Bike, featuring a 20-inch magnesium alloy frame for a lightweight yet sturdy ride. With Kenda 20 x 2.4 tires for superior grip and 160mm G3 disc brakes for reliable stopping power, this bike is built for performance.

It unfolds to 1680mm x 600mm x 1180mm and folds compactly to 920mm x 400mm x 780mm. Enjoy up to 80km of range in Pedal Assist System (PAS) mode and a top speed of 25km/h. At just 21kg, it's easy to carry and store.

Choose from 250W, 350W, or 500W motor options, and benefit from the LG 48V 15Ah battery for long-lasting performance. The Naici sine wave controller ensures smooth handling.
