Product Description

250-750W Mid Motor Hub 48V 14/17.5Ah Battery Fat Tire Ebike

Product Description:

Introducing the NC-SAIL-M3, a powerhouse fat tire electric bike that redefines adventure and exploration. Perfectly crafted for those who seek both urban excitement and rugged off-road capabilities, the NC-SAIL-M3 delivers unmatched performance and versatility.

The NC-SAIL-M3 features a robust 20-inch 6061 aluminum alloy frame, combining strength with lightweight design for a bike that's both durable and easy to handle. The Kenda 20 x 4.0 tires offer exceptional grip and stability, ensuring smooth rides on a variety of surfaces, from city streets to rough trails.

With 160mm G3 disc brakes, the NC-SAIL-M3 provides reliable and powerful stopping performance, giving you the confidence to tackle steep descents and challenging conditions. Its dimensions of 1730mm in length, 950mm in width, and 930mm in height provide a stable riding stance while remaining manageable for everyday use.

Designed for long-distance adventures, the NC-SAIL-M3 boasts a mileage of up to 60km in Pedal Assist System (PAS) mode, making it ideal for extended journeys and daily commutes. Its impressive maximum speed of 45km/h offers a high-speed thrill, perfect for those who crave excitement.

At 27kg, the NC-SAIL-M3 strikes a balance between sturdiness and manageability, making it easy to transport and handle. The bike features a versatile mid motor with options ranging from 250W to 750W, allowing you to customize your riding experience according to your power needs and preferences.

Powered by an LG 48V battery available in 14Ah or 17.5Ah capacities, the NC-SAIL-M3 ensures long-lasting performance and reliability, giving you the freedom to explore without frequent recharges.

The NC-SAIL-M3 is not just an electric bike; it's a gateway to new adventures and unforgettable experiences. Embrace the thrill of the ride and the freedom to conquer any terrain—discover the NC-SAIL-M3 today.

Technical Parameters:

| | |
|--------------------------------|------------------------------------|

| Max Speed | ≤45km/h |
| Net Weight | 27kg |
| Motor | 250W -750W mid motor |
| Battery Type | LG |
| Battery Capacity | 48V 14Ah /17.5Ah |

Applications:

The NC-SAIL-M3 fat tire electric bike combines robust construction with versatile performance to tackle a variety of terrains. Its 20-inch 6061 Aluminum Alloy frame ensures a balance of durability and light weight, making it suitable for both urban commutes and rugged off-road trails. The bike is equipped with Kenda 20 x 4.0 tires, which provide exceptional grip and stability, enhancing traction on diverse surfaces.

Safety and control are paramount, with 160mm G3 Disc Brakes delivering reliable stopping power for confident braking, even at high speeds. The bike's dimensions—1730mm in length, 950mm in width, and 930mm in height—offer a commanding presence on the road while remaining manageable.

In Pedal Assist System (PAS) mode, the NC-SAIL-M3 can cover up to 60km, making it ideal for longer rides. It reaches a top speed of 45km/h, catering to those who enjoy a fast-paced ride. Despite its solid build, the bike weighs 27kg, balancing sturdiness with ease of handling.

The motor options range from 250W to 750W, allowing for customizable power levels to suit different riding needs. The LG 48V battery is available in 14Ah or 17.5Ah capacities, providing extended range and ensuring you can go the distance on your adventures.

Customization:

Discover the NC-SAIL-M3 Fat Tire Electric Bike. Featuring a 20-inch 6061 aluminum alloy frame, it combines robustness with a lightweight design. The 20 x 4.0 Kenda tires ensure excellent grip and stability across various terrains.

Equipped with 160mm G3 disc brakes, this bike offers reliable stopping power. It measures 1730mm x 950mm x 930mm and supports up to 60km of range in Pedal Assist System (PAS) mode, with a top speed of 45km/h. Weighing 27kg, it remains sturdy yet easy to handle.

The NC-SAIL-M3 offers motor options from 250W to 750W and comes with an LG 48V battery in 14Ah or 17.5Ah capacities for extended range and versatile performance.
