

## 160mm G3 Disc Brake 48V 15 Ah Battery 700v 6061 Aluminum Alloy Frame Road Ebike

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: NC
- Model Number: NC-STR-S1
- Minimum Order Quantity: 10pcs
- Price: Negotiation
- Packaging Details: 1890mm (L) x 730mm (W) x 1140mm (H)
- Payment Terms: T/T

### Product Specification

- Frame: 700c 6061 Aluminum Alloy
- Tires: 700 X 40c
- Brakes: 160mm G3 Disc Brakes
- Max Speed: 40km/h
- Battery: LG 48V 15Ah
- Weight: 25kg
- Highlight: 160mm Road Ebike, 48V Road Ebike, 6061 Aluminum Alloy Road Ebike

## Product Description

### 160mm G3 Disc Brake 48V 15 Ah Battery 700v 6061 Aluminum Alloy Frame Road Ebike

#### Product Description:

Introducing the NC-STR-S1, an electric road bike that blends cutting-edge technology with a sleek, performance-focused design. Engineered for those who demand speed and efficiency on every ride, the NC-STR-S1 is perfect for both long-distance journeys and swift city commutes.

Built with a 700c 6061 aluminum alloy frame, the NC-STR-S1 offers a strong yet lightweight structure, ensuring a responsive and agile ride. The 700 x 40 tires are selected for their smooth rolling and efficiency, providing a comfortable and swift experience on various road surfaces.

The bike is equipped with 160mm G3 disc brakes, delivering reliable and powerful stopping performance. This ensures you can navigate both high-speed descents and sharp turns with confidence. With dimensions of 1890mm in length, 730mm in width, and 1140mm in height, the NC-STR-S1 strikes an ideal balance between a streamlined design and practical functionality.

For longer rides, the NC-STR-S1 excels with a mileage of up to 60km in Pedal Assist System (PAS) mode. It reaches a maximum speed of 40km/h, providing an exhilarating ride that's both fast and efficient.

Weighing 25kg, the NC-STR-S1 is engineered to be both durable and performance-oriented, making it ideal for those who seek reliability without sacrificing speed. The bike is powered by an LG 48V 15Ah battery, offering extended range and efficiency, so you can focus on enjoying the ride rather than worrying about frequent recharges.

The NC-STR-S1 is more than just an electric road bike; it's a gateway to a new level of riding performance and enjoyment. Experience the perfect combination of speed, efficiency, and comfort—discover the NC-STR-S1 today.

#### Technical Parameters:

Electric Road Bike	
Frame	700c 6061 Aluminum Alloy
Tire	700 x 40c
Brake	160mm G3 Disc Brak
Size	1890mm (L) x 730mm (W) x 1140mm (H)
Mileage	PAS > 60km
Max Speed	≤40km/h
Net Weight	25kg
Battery Type	LG
Battery Capacity	48V 15Ah

#### Applications:

Introducing the NC-STR-S1 Electric Road Bike, meticulously crafted to offer a blend of strength and efficiency for a superior riding experience. Designed for enthusiasts who appreciate both performance and comfort, this bike excels in delivering smooth and speedy rides whether on urban streets or longer routes.

The 700c 6061 Aluminum Alloy frame combines strength with a lightweight design, ensuring durability while maintaining ease of handling. This robust frame provides a solid foundation for both commuting and longer rides, accommodating various riding styles with ease.

With 700 x 40 tires, the NC-STR-S1 ensures a smooth and efficient ride. These tires are chosen for their ability to balance comfort and performance, providing excellent traction and stability on different road surfaces.

The bike features 160mm G3 Disc Brakes that deliver reliable and powerful stopping performance. This advanced braking system offers confidence and safety during high-speed rides and ensures effective control in various riding conditions.

Measuring 1890mm in length, 730mm in width, and 1140mm in height, the NC-STR-S1 is designed to provide a balanced and comfortable riding position. Its dimensions contribute to a stable and controlled riding experience, making it suitable for extended journeys and daily commutes.

In Pedal Assist System (PAS) mode, the bike offers a mileage of up to 60km on a single charge. This extended range is ideal for longer rides and ensures you can explore more without the need for frequent recharging.

The NC-STR-S1 reaches a maximum speed of 40km/h, delivering a speedy and efficient ride. This performance is ideal for those seeking both thrill and practicality, whether navigating through city streets or enjoying a swift ride on open roads.

Weighing 25kg, the bike is well-balanced for performance and durability. Its weight ensures stability while remaining manageable, making it a reliable choice for various riding scenarios.

Powered by an LG 48V 15Ah battery, the NC-STR-S1 offers extended range and efficient performance. This battery ensures that you have the power needed for longer trips and a dependable ride every time.

The NC-STR-S1 Electric Road Bike is designed to meet the demands of riders seeking a combination of durability, efficiency, and speed. With its robust frame, reliable braking system, and extended mileage, it stands out as a versatile and high-performance option for both daily commutes and extended journeys.

#### Customization:

Introducing the NC-STR-S1 Electric Road Bike. With a 700c 6061 aluminum alloy frame, it offers both strength and lightweight performance. The 700 x 40 tires ensure a smooth and efficient ride, while the 160mm G3 disc brakes provide reliable stopping power.

Measuring 1890mm x 730mm x 1140mm, this bike delivers up to 60km in Pedal Assist System (PAS) mode and a top speed of 40km/h. Weighing 25kg, it balances performance with durability. Equipped with an LG 48V 15Ah battery, it promises extended range and efficiency.
