## Product Description

### Tiger design 12V 7Ah battery 45W motor vary colors e-rider car

#### Product Description:

The HLX-SX2268 electric ride-on car is crafted for adventurous kids aged 8 to 12, offering a blend of excitement and control. It features a powerful 12V 45W motor and comes with a 12V 7Ah battery, enabling speeds from 8 to 12 km/h for a thrilling ride. The 24V version enhances performance with a 24V 180W motor and dual 12V 7Ah batteries for an even more exhilarating experience.

This ride-on car includes a 12V stepless speed hand throttle, allowing children to adjust their speed smoothly and precisely. The slow start function ensures a gradual acceleration, making each ride safer and more enjoyable.

The HLX-SX2268 is not just about performance; it also comes with an MP3 player, adding a fun musical element to the driving experience. Available in classic colors—White, Red, Blue, and Pink—this car combines style with practicality, supporting up to 50 kg for a single seat.

Perfect for kids who love to drive with style and flair, the HLX-SX2268 is a fun, reliable choice for hours of entertainment.

#### Technical Parameters:

Kid Mini Car	Childrens Electric Ride On Cars
Motors	12V version: 12V45W*1 24V version: 24V180W 5.5inch

Seats	1
Slow start function	Included
MP3	yes

#### Applications:

The HLX-SX2268 electric kids car is crafted for an exhilarating ride, ideal for children aged 8 to 12. It features a robust 12V motor with a 45W output and is powered by a 12V 7AH battery, ensuring a reliable performance and extended playtime.

This model includes a 12V stepless speed hand throttle, allowing precise control over the car's acceleration and speed, from a slow start to full throttle. The slow start function enhances safety by providing a gradual acceleration, perfect for young drivers. Additionally, the car is equipped with an MP3 player, adding entertainment to the driving experience. Available in a selection of bright colors including white, red, blue, and pink, the HLX-SX2268 supports a maximum load of 50 kg and reaches speeds of 8 to 12 km/h. It is designed for a single rider, combining fun, control, and safety in one exciting package.
