

36V 250W Mid Drive Motor 10.4Ah Battery Electric Cargo Bike For Carrying

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: HYZN
- Model Number: HYZN-HCC20M
- Minimum Order Quantity: 10pcs
- Price: Negotiation
- Delivery Time: 30-45days
- Payment Terms: T/T

Product Specification

- Wheel Size: 20*2.4
- Motor: 36V 250W Mid Drive Motor
- Battery: 36V 10.4Ah / 36V 14.0Ah
- Max Speed: 25km/h
- Net Weight: 26.8
- Standard Load: 105kgs
- Highlight: **10.4Ah Electric Cargo bike,
250W Electric Cargo bike,
36V Electric Cargo bike**

Product Description

36V 250W mid drive motor 10.4Ah battery Electric Cargo bike for carrying

Product Description:

The HYZN-HCC20M electric cargo bike is a versatile and robust solution designed for those who need to carry more while maintaining efficiency. Equipped with durable 20 x 2.4 inch wheels, this bike ensures stability and control, even with heavier loads.

The 36V 250W mid-drive motor provides consistent and powerful assistance, ideal for transporting goods or running errands around town. With battery options of 10.4Ah or 14.0Ah, the HYZN-HCC20M offers extended range capabilities, making it perfect for long trips or daily deliveries. Its maximum speed is capped at 25 km/h, providing a safe and reliable ride, especially in urban settings.

Weighing 26.8 kg, this electric cargo bike balances strength and maneuverability, with a standard load capacity of 105 kg, making it ideal for carrying extra weight without sacrificing performance. Whether you're commuting or managing daily tasks, the HYZN-HCC20M is your trusted companion for cargo transportation.

Technical Parameters:

Electric Cargo Electric Bike	
Wheel Size	20*2.4
Motor	36V 250W mid drive
Battery	36V 10.4Ah / 36V 14.0Ah
Max Speed	25km/h
Net Weight	26.8kgs
Standard Load	105kgs

Applications:

The HYZN-HCC20M is a sturdy electric cargo bike designed to handle heavy loads while ensuring smooth and efficient rides. Equipped with 20-inch wheels and a 36V 250W mid-drive motor, this bike provides balanced power for carrying cargo through urban environments.

You have the option of two battery capacities: 36V 10.4Ah or 14.0Ah, giving flexibility for longer or shorter trips. The bike reaches a top speed of 25 km/h, making it ideal for city commuting and delivery tasks.

With a net weight of 26.8 kg and a standard load capacity of 105 kg, the HYZN-HCC20M is built to manage both the rider and a substantial amount of cargo. Its durable construction and powerful motor make it a reliable choice for those in need of a practical and efficient cargo e-bike.

Customization:

Introducing the HYZN-HCC20M, an electric cargo bike designed for efficiency and convenience. It comes with 20 x 2.4 wheels for better grip and stability, powered by a 36V 250W mid-drive motor, making it perfect for cargo transport. The bike offers battery options of 36V 10.4Ah and 36V 14.0Ah, providing ample range for your rides. With a maximum speed of 25 km/h, a net weight of 26.8 kg, and a standard load capacity of 105 kg, it's well-suited for daily commutes and cargo delivery needs.
