Product Description

20*4.0 Fat Tire 48V 500W Super Power 15.6Ah Battery 32KM/H Fast Speed E-Bike

Product Description:

Introducing the HYZN-HFT20, the fat tire electric bike that transforms every ride into an exhilarating adventure. With its impressive 20-inch x 4.0-inch fat tires, this bike is engineered to handle diverse terrains, from sandy beaches to snowy paths, providing unbeatable stability and traction.

Powered by a robust 48V 500W motor, the HYZN-HFT20 delivers a thrilling maximum speed of 32 km/h, ensuring you experience both power and performance on your journey. Its high-capacity battery options—48V 15.6Ah and 48V 21.0Ah—offer extended range and reliability, so you can confidently embark on long rides without worrying about recharging. Despite its rugged capabilities, the HYZN-HFT20 remains surprisingly manageable, with a net weight of 28 kg and a standard load capacity of 100 kg. This combination of strength and agility makes it perfect for both adventurous trails and everyday commutes.

Whether you're seeking to conquer challenging terrain or simply enjoy a smooth, powerful ride, the HYZN-HFT20 is designed to elevate your biking experience to new heights.

Technical Parameters:

| | |
|------------------------|------------------------|
| Fat Tire Electric Bike | |
| Wheel Size | 20*4.0 |
| Motor | 48V 500W |
| Battery | 48V15.6Ah / 48V 21.0Ah |
| Max Speed | 32km/h |
| Net Weight | 28kgs |
| Standard Load | 100kgs |

Applications:

Introducing the HYZN-HFT20 Fat Tire Electric Bike, engineered for exceptional performance and versatility. This bike is perfect for riders who demand both power and comfort, whether you're cruising through city streets or tackling off-road trails.

The HYZN-HFT20 comes with 20 x 4.0 fat tires that provide superior stability and traction on a variety of surfaces. These large, rugged tires ensure a smooth and controlled ride, whether you're navigating uneven terrain or enjoying a comfortable city commute.

Powered by a 48V 500W motor, the bike delivers strong and efficient performance. This motor choice provides the necessary power for a thrilling ride and reliable operation across different riding conditions.

The battery options include 48V 15.6Ah or 48V 21.0Ah, offering extended range and reliable performance. These capacities allow for longer rides without the need for frequent recharging, making the HYZN-HFT20 suitable for both short trips and more extended adventures.

With a top speed of 32km/h, the HYZN-HFT20 offers a dynamic and exciting riding experience. Its net weight of 28kg balances durability with ease of handling, ensuring that the bike remains manageable while being robust enough to endure various riding conditions.

The standard load capacity of 100kg ensures that the bike can comfortably accommodate riders and gear, enhancing its versatility for different uses.

In summary, the HYZN-HFT20 Fat Tire Electric Bike combines powerful motor performance, extended battery life, and durable design to deliver a superior riding experience. Ideal for a range of environments, it is designed to offer both reliability and excitement for adventurous riders.

Customization:

Introducing the HYZN-HFT20, a powerful fat tire electric bike designed for durability and performance. It features 20 x 4.0 wheels and a robust 48V 500W motor for strong, reliable power. With battery options of 48V 15.6Ah or 21.0Ah, it provides extended range. The bike reaches a top speed of 32 km/h, supports a standard load of 100 kg, and has a net weight of 28 kg. Ideal for tackling various terrains with confidence.
