## Product Description

### Green light weight design retro style e-rider with 750W super motor power

#### Product Description:

The HYZN-HRC20X combines vintage charm with modern technology, offering a retro-style electric bike that's both stylish and powerful. With 20x2.4-inch wheels, this bike provides a robust and smooth ride across various terrains. Powered by a 48V motor available in 350W, 500W, or 750W options, it delivers impressive performance and can reach speeds ranging from 25 km/h to 45 km/h, catering to different riding preferences. The 48V 20Ah battery ensures extended range, allowing you to enjoy longer rides with fewer stops for recharging. Despite its powerful features, the HYZN-HRC20X remains manageable with a net weight of 38 kg and supports a standard load of 100 kg. This retro-style electric bike not only captures the essence of classic design but also incorporates modern efficiency and power, making it an excellent choice for both nostalgic enthusiasts and practical riders.

#### Technical Parameters:

Retro Style Electric Bike	
Wheel Size	20*2.4
Motor	48V 350W/500W/750W
Battery	48V 20Ah
Max Speed	25-45km/h
Net Weight	38kgs
Standard Load	100kgs

#### Applications:

Introducing the HYZN-HRC20X Retro Style Electric Bike, a fusion of classic design and modern performance tailored for those who appreciate a vintage look with contemporary functionality. This bike combines stylish aesthetics with robust features to deliver a unique and powerful riding experience.

The HYZN-HRC20X features 20-inch wheels with a 2.4-inch width, offering a blend of stability and agility. The larger tire size enhances comfort and control, making it suitable for various riding conditions.

Powered by a versatile 48V motor with options of 350W, 500W, or 750W, this bike delivers a customizable performance to match your riding preferences. Whether you're seeking a casual cruise or a more powerful ride, the HYZN-HRC20X offers the flexibility to choose the motor that best suits your needs.

The bike is equipped with a substantial 48V 20Ah battery, ensuring extended range and reliable power for long rides. This generous battery capacity supports a maximum speed range of 25-45km/h, allowing you to enjoy both leisurely trips and more exhilarating rides.

With a net weight of 38kg, the HYZN-HRC20X is designed to handle a standard load of up to 100kg. This robust construction provides durability and stability while maintaining a stylish and retro appearance.

In summary, the HYZN-HRC20X Retro Style Electric Bike is an excellent choice for riders who want a blend of classic charm and modern performance. Its customizable motor options, substantial battery capacity, and distinctive design make it a standout option for those seeking both style and substance in their electric bike.

#### Customization:

The HYZN-HRC20X combines retro aesthetics with modern electric performance. It features 20 x 2.4-inch wheels for stability and comfort. Powered by a 48V motor, available in 350W, 500W, or 750W options, it delivers robust performance. The 48V 20Ah battery ensures long-lasting power, supporting speeds between 25 km/h and 45 km/h. Weighing 38 kg, this bike can handle a standard load of up to 100 kg, making it a stylish yet practical choice for various riding needs.
