## Product Description

### Black 20\*2.125 wheel size 36V 250W motor urban casual electric bike

#### Product Description:

Introducing the HYZN-HU20, a sleek and efficient electric road bike designed to bring convenience and style to your everyday commute. This bike is powered by a 36V 250W motor that provides smooth, reliable assistance, helping you effortlessly reach speeds up to 25 km/h. Whether you're cruising through city streets or tackling longer road rides, the HYZN-HU20 is built to perform.

Equipped with 20\*2.125-inch wheels, the HYZN-HU20 ensures a stable ride while maintaining agility in tight spaces. The lightweight frame, combined with a 36V 6.4Ah or 7.0Ah battery, strikes the perfect balance between portability and range. Its battery design allows for quick and easy charging, so you can spend more time riding and less time waiting. Weighing just 18 kg, this bike is easy to handle and transport, making it ideal for urban environments. The bike's load capacity of 100 kg means it's versatile enough for riders of various sizes, while the road-specific design ensures a comfortable ride.

If you're looking for a stylish, practical, and eco-friendly way to travel, the HYZN-HU20 is your go-to solution. With its smooth motor and carefully crafted design, every ride feels effortless.

#### Technical Parameters:

Electric Road Bike	
Wheel Size	20*2.125
Motor	36V 250W
Battery	36V 6.4Ah / 36V 7.0Ah
Max Speed	25km/h
Net Weight	18kg
Standard Load	100kgs

#### Applications:

The HYZN-HU20 Road Electric Bike brings you the confidence of reliable performance and easy handling on all your urban journeys. Equipped with responsive braking, it ensures smooth stops even in the busiest traffic, so you can ride with peace of mind through all kinds of road conditions.

Powered by a robust 36V battery, available in 6.4Ah or 7.0Ah capacities, this bike provides ample energy for both quick trips and longer city adventures, keeping you on the move without frequent charging interruptions. The battery is designed for longevity and stability, letting you focus on the ride rather than the recharge.

The frame of the HYZN-HU20 is crafted for optimal balance between durability and lightness, weighing just 18 kg. This allows for effortless handling, while its sturdy design comfortably supports up to 100 kg, making it perfect for daily commuting and casual weekend rides alike.

The bike's 20\*2.125-inch wheels offer ideal traction and a smooth, stable ride on paved roads. With a 36V 250W motor, the HYZN-HU20 reaches a top speed of 25 km/h, providing enough power to handle city distances swiftly while keeping control simple and intuitive.

In essence, the HYZN-HU20 is tailored for urban explorers seeking a reliable, agile, and energy-efficient ride. It's a compact yet powerful choice that transforms every ride into a smooth and enjoyable journey, ideal for those who value both practicality and performance on the road.

#### Customization:

Originating from China, the HYZN-HU20 Road Electric Bike offers a streamlined and efficient design for urban commuters and road cyclists. Featuring 20 x 2.125-inch wheels, the bike ensures a smooth and stable ride, ideal for navigating city streets and longer road trips.

The bike is powered by a 36V 250W motor, paired with battery options of either 36V 6.4Ah or 36V 7.0Ah, providing dependable performance and a maximum speed of 25 km/h. With a net weight of 18 kg, the HYZN-HU20 is lightweight yet robust, capable of supporting a standard load of up to 100 kg.

Our minimum order quantity is 10 units, with a delivery time of 40-50 days. Contact us today to customize your HYZN-HU20 Road Electric Bike for your specific needs.
