## Product Description

### RetroCruise 20-Inch Electric Bike With 250W Motor And Hydraulic Disc Brakes

#### Product Description:

The KDF-Go Time 4000 is a retro-style electric bike that blends vintage aesthetics with modern performance, creating an unforgettable riding experience. Whether you're cruising through city streets or enjoying leisurely rides through the park, this e-bike combines stylish design with high-tech features for ultimate convenience and enjoyment.

Powering the KDF-Go Time 4000 is a 48V 250W rear motor that delivers consistent performance and efficient power. Whether you're navigating inclines or cruising along flat paths, this motor provides the right amount of assistance to make every ride smooth and effortless. With the 48V 13Ah lithium battery, you can expect a range of 60-70 km, depending on various factors like terrain, rider weight, and riding style. The battery also offers a charging time of just 6-7 hours, ensuring that your bike is ready to go for the next adventure.

The KDF-Go Time 4000 features a lightweight and durable Alloy 6061 frame, designed in a 20" size that is perfect for maneuverability and comfort. The alloy frame is both sturdy and stylish, offering a sleek appearance that complements the bike's retro vibe. Paired with a 20" alloy suspension fork that includes a hydraulic lock, the bike offers a smooth and comfortable ride, even on rougher surfaces, with the ability to lock the suspension when riding on smoother paths for improved efficiency.

Shimano's 7-speed gearing system—featuring the Shimano SLM315 shifter, Shimano MF-TZ500-7 freewheel, and Shimano TOURNEY RD-TY300 derailleur—provides seamless shifting and a wide range of gears. Whether you're cruising through city streets or exploring countryside roads, you'll have the right gear to make pedaling effortless and enjoyable.

The Kenda K1276 tires (20 x 4.5") are ideal for both city riding and off-road adventures, providing excellent grip and stability. These fat tires, combined with the magnesium alloy rims, not only look great but also add to the bike's performance, making it easy to handle different terrains while maintaining control. The alloy hydraulic disc brakes ensure reliable stopping power, giving you confidence when navigating downhill or when you need to stop quickly.

The LCD display provides you with essential information such as speed, battery life, and trip statistics, allowing you to stay informed about your ride. Pedal assist is available to give you a boost when needed, whether you're tired or want to conserve energy, ensuring that the ride remains comfortable and smooth.

The KDF-Go Time 4000 also features a CDC Comfort saddle designed to enhance your riding experience. The saddle offers cushioning and support, making long rides more enjoyable. The alloy handlebar and stem are ergonomic, providing a comfortable and upright riding position, ideal for city commuting or relaxed cycling.

With a waterproof harness, the KDF-Go Time 4000 is built to handle a variety of weather conditions, ensuring that your bike stays in great shape regardless of the elements. Whether you're riding in the rain or dealing with dusty trails, this bike is ready to take on any adventure.

The KDF-Go Time 4000 is the perfect combination of classic style and modern technology, offering an exciting ride that's as fun to look at as it is to ride. With its powerful motor, long-lasting battery, and sleek retro design, the KDF-Go Time 4000 ensures that every journey is an enjoyable one. Whether you're exploring the city, cruising through the countryside, or just enjoying a leisurely ride, the KDF-Go Time 4000 is the ideal companion for your cycling adventures.

#### Technical Parameters:

Retro Style Electric Bike	
Motor	Rear motor, 48V 250W
Range	60-70 km
Battery	48V 13Ah Lithium battery
Charging Time	6-7 hours
Display	LCD display
Pedal Assist	Yes
Max Speed	25 km/h
Waterproof	Waterproof harness
Frame Material	Alloy 6061, 700C
Brakes	Alloy mechanical disc brakes

#### Applications:

The KDF-Go Time 4000 is a retro-style electric bike that combines classic design with modern technology, delivering an exciting and smooth ride for those who appreciate both aesthetics and performance. Powered by a 48V 250W rear motor and a 48V 13Ah lithium battery, it offers an impressive range of 60-70 km, depending on factors such as rider weight, terrain, and riding style. The battery takes approximately 6-7 hours to fully charge, so you're ready for your next adventure.

Built with a durable 20" Alloy 6061 frame and equipped with a 20" alloy suspension fork that includes a hydraulic lock, the KDF-Go Time 4000 provides both strength and comfort. The suspension fork absorbs shocks effectively, ensuring a smooth ride on rougher terrains or bumpy roads. The bike's vintage styling is complemented by modern features, making it a perfect blend of past and present.

The 7-speed Shimano gearing system, featuring Shimano SLM315 7-speed shifters, Shimano MF-TZ500-7 7-speed freewheel, and Shimano TOURNEY RD-TY300 7-speed derailleur, offers smooth and reliable shifting for varied riding conditions. The Kenda K1276 20 x 4.5" tires provide excellent grip and stability, particularly on uneven surfaces, while the 20" magnesium alloy rims are lightweight yet durable.

Alloy hydraulic disc brakes ensure responsive and powerful stopping performance, adding to the bike's overall safety and handling. The alloy handlebars and stem contribute to the bike's sleek look, while the CDC Comfort saddle ensures a comfortable ride, even on longer journeys. The LCD display keeps you informed of your speed, battery status, and other important metrics.

With a maximum speed of 25 km/h (or 32 km/h in some regions), the KDF-Go Time 4000 is perfect for cruising through city streets, winding paths, or even taking on light off-road trails. Its retro-inspired design, combined with advanced features, makes this electric bike a stylish and reliable choice for everyday transportation and leisurely rides.

**Customization:**

The KDF-Go Time 4000 blends retro style with modern electric performance, making it an ideal choice for those who seek both nostalgia and innovation. Powered by a 48V 250W rear motor and a 48V 13Ah lithium battery, this vintage-inspired electric bike offers a range of 60-70 km, allowing you to cruise through the city or along scenic routes with ease. The pedal assist system ensures a smooth and efficient riding experience, and the bike can reach a top speed of 25 km/h (or 32 km/h in select countries). With a charging time of 6-7 hours, the KDF-Go Time 4000 is always ready for your next adventure.

Featuring a durable Alloy 6061 20" frame and a 20" alloy suspension fork with hydraulic lock, the KDF-Go Time 4000 is designed for both comfort and performance on a variety of surfaces. The magnesium alloy rims enhance the bike's retro appeal while ensuring strength and durability, and the Kenda K1276 20 x 4.5" tires provide excellent traction for a smooth and stable ride. The Shimano 7-speed gearing system, with Shimano SLM315 shifters, MF-TZ500-7 freewheel, and TOURNEY RD-TY300 derailleur, allows for easy and efficient gear transitions to suit your riding needs.

For safety and control, the bike features alloy hydraulic disc brakes, providing reliable stopping power even in challenging conditions. The alloy handlebars and stem offer stability and a comfortable riding posture, while the CDC Comfort saddle ensures a pleasant ride, even over longer distances. The waterproof harness ensures the bike remains reliable in various weather conditions, allowing you to enjoy the ride regardless of the elements.
