

Basile Urban Cruiser 26 Inch Electric Bike 250W Motor 8 Speed Gearing System

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: KDF
- Model Number: KDF-Basile
- Minimum Order Quantity: 50pcs
- Price: Negotiation
- Delivery Time: 30-45days
- Payment Terms: T/T

Product Specification

- Motor: Rear Motor, 36V 250W
- Range: 30-50 Km
- Battery: 36V 10Ah Chinese Lithium Battery
- Max Speed: 25 Km/h
- Frame: Alu 6061, 26"
- Gearing: Shimano Altus, 8-Speed; Shimano 8SP Cassette; Shimano Altus Derailleur, 8-Speed
- Brakes: Tekro Alloy MD-M280 Disc Brakes Hub: KT KT-K68F, Alloy
- Tires: CST C-1949, 26 X 1.95"
- Highlight: **26 Inch Electric Bike , 250W Electric Bike , 8 Speed Electric Bike**

Product Description

Basile Urban Cruiser 26 Inch Electric Bike 250W Motor 8 Speed Gearing System

Product Description:

The KDF-Basile is a sleek electric city bike built for comfort and efficiency on urban commutes. Powered by a 36V 250W rear motor, it delivers a range of 30-50 km, depending on variables like rider weight, riding style, and environmental conditions. The 36V 10Ah lithium battery ensures dependable performance and charges fully in 5-6 hours.

With an LCD display, riders can easily track important metrics such as speed, battery level, and more. The bike features pedal assist, making it easier to tackle various terrains without heavy pedaling effort. The maximum speed is 25 km/h in most countries, but it can reach up to 32 km/h in select regions, subject to local regulations.

The KDF-Basile is built with an Alu 6061 frame, offering a strong and lightweight design. The 26" alloy fork absorbs shocks, providing a smooth and comfortable ride on city streets. The Prowheel MA-AC49 crankset (24/34/42T) and KMC chain deliver smooth power transfer, while the Shimano Altus 8-speed gearing system, complete with an 8-speed cassette and derailleur, allows for easy gear shifting across different urban environments.

The bike is equipped with CST C-1949 tires (26 x 1.95") that offer a balanced combination of comfort and grip, ensuring a stable ride. Alloy double-wall rims and 13G steel spokes add durability, making the KDF-Basile ready for everyday use. The Tekro alloy MD-M280 disc brakes provide reliable stopping power, even in wet conditions.

Other key features include a KT KT-K68F alloy hub, alloy handlebar, and stem, and a comfortable CDC Sport saddle for long-distance comfort. The KDF-Basile is a versatile electric city bike, perfect for daily commuting or leisurely rides through urban landscapes.

Technical Parameters:

Electric City Bike	
Motor	Rear motor, 36V 250W
Range	30-50 km
Battery	36V 10Ah Lithium battery
Charging Time	5-6 hours
Display	LCD display
Pedal Assist	Yes
Max Speed	25 km/h
Waterproof	Waterproof harness
Frame Material	Alu 6061, 26"
Brakes	Tekro alloy MD-M280 disc brakes

Applications:

The KDF-Basile is an electric city bike that combines practicality with stylish design, offering a smooth, reliable ride for urban commuters and casual cyclists alike. Powered by a 36V 250W rear motor, the bike provides efficient and steady assistance, making it ideal for navigating city streets, short commutes, and light off-road trails. The 36V 10Ah Chinese lithium battery offers a range of 30-50 km, depending on factors like rider weight, temperature, and riding conditions. The battery takes 5-6 hours to fully charge, allowing for quick turnarounds between rides.

Designed with a lightweight yet durable Alu 6061 frame and 26" alloy fork, the KDF-Basile delivers a sturdy and responsive ride. Whether cruising through the city or on more challenging surfaces, this bike provides comfort and stability.

Equipped with a Shimano Altus 8-speed gear system, the KDF-Basile allows for smooth, precise shifting through various terrain. The Shimano Altus derailleur and Shimano 8SP cassette ensure that riders can adapt easily to different speeds and gradients. Paired with the KMC chain, the system promises reliable performance for years to come.

The bike features CST C-1949 26 x 1.95" tires, offering a good balance between grip and comfort. The Tekro MD-M280 alloy disc brakes provide excellent stopping power, ensuring safety and control in all weather conditions. The KT KT-K68F alloy hub adds to the overall efficiency and durability of the bike.

For comfort, the alloy handlebar and stem ensure a stable and ergonomic riding position, while the CDC Sport saddle provides a comfortable seat for longer rides.

The LCD display gives you essential information like speed, battery level, and distance, keeping you informed during your ride. With pedal assist functionality, the bike offers a boost of power when needed, and the waterproof harness ensures the bike remains functional even in damp conditions.

With a max speed of 25 km/h (or 32 km/h in select regions), the KDF-Basile is perfect for daily commuting, leisurely rides, and everything in between. Its combination of reliability, comfort, and performance makes it an excellent choice for city riders seeking an efficient electric bike.

Customization:

The KDF-Basile is an electric city bike that combines sleek design with reliable performance, making it a perfect companion for daily commutes and city exploration. Powered by a 36V 250W rear motor and a 36V 10Ah lithium battery, it offers a range of 30-50 km depending on environmental conditions, rider weight, and riding style. The bike includes pedal assist for a smooth and efficient ride, while the maximum speed of 25 km/h (32 km/h in select countries) ensures you stay within legal limits. Charging the bike is quick, with a 5-6 hour turnaround time.

The KDF-Basile features a sturdy Alu 6061 26" frame and a 26" alloy fork, providing excellent durability and comfort for

city riding. The Shimano Altus 8-speed gearing system, paired with a Shimano 8SP cassette and Altus derailleur, offers smooth and responsive gear shifts for a more customized riding experience. The Prowheel MA-AC49 alloy crankset (24/34/42T) and KMC chain contribute to the bike's reliability and long-lasting performance. The bike's alloy double-wall rims and 13G steel spokes are built to withstand daily use while maintaining strength and stability. The CST C-1949 26 x 1.95" tires offer a smooth ride with excellent grip on urban roads. For safe stopping power, the KDF-Basile is equipped with Tekro alloy MD-M280 disc brakes, ensuring reliable braking performance in any conditions. The alloy handlebar and stem provide a comfortable, ergonomic riding position, while the CDC Sport saddle ensures comfort for extended rides. With a waterproof harness, the KDF-Basile is designed to handle various weather conditions, making it an excellent choice for year-round urban commuting.
