Product Description

Product Description

Introducing the LEE711 Electric Road Bike, designed for both urban commuting and weekend adventures. Crafted from durable 6061 aluminum, this lightweight frame ensures easy handling and agility. The stylish step-through design offers convenience, making it accessible for riders of all heights. Equipped with a powerful 350W rear hub motor, the LEE711 effortlessly supports speeds up to 28 mph, allowing you to conquer hills and long distances with ease. The bike features a reliable hydraulic disc brake system, ensuring exceptional stopping power in all weather conditions. Its Shimano Tourney 7-speed gear system provides smooth shifting, letting you adapt to various terrains seamlessly. The LCD display keeps you informed of your speed, battery level, and distance traveled, enhancing your riding experience. With a 36V 10.4Ah lithium-ion battery, enjoy extended rides without the worry of running out of power. Whether you're commuting to work or exploring scenic routes, the LEE711 Electric Road Bike combines performance, comfort, and style, making it an ideal choice for any cycling enthusiast.
