Product Description

Product Description

The LEE814 Electric Folding Bike merges innovative design with exceptional functionality, making it a top choice for urban commuters and casual riders. Its folding frame, constructed from robust 6061 aluminum alloy, is both lightweight and durable, allowing for easy transport and storage in tight spaces. The bike features a sleek, modern aesthetic with clean lines and a stylish white finish, ensuring you ride in both comfort and style.

Powered by a 500W rear hub motor, the LEE814 provides powerful acceleration and the ability to tackle inclines with ease. The inclusion of a suspension fork enhances riding comfort, absorbing shocks from uneven surfaces. With a 48V lithium-ion battery, riders can enjoy a range of 60 to 80 kilometers on a single charge, perfect for longer journeys without the hassle of frequent recharging. The Kenda 20" x 3" tires offer excellent traction, while the Shimano Tourney 7-speed gear system allows for smooth shifting and versatility across various terrains. Weighing 36.7 kg, this bike strikes an optimal balance between sturdiness and maneuverability. The LEE814 is designed for those seeking a practical yet stylish solution for their daily cycling needs.
