## Product Description

### Kids Electric Scooter Stylish and Safe 6.5-Inch with 200W Motor and Braking System

#### Product Description:

Introducing our innovative electric ride-on scooters, designed to captivate children aged 5 and above. Available in various eye-catching models (JL008-03, JL008-05, JL008-08, and JL008-10), these scooters offer a perfect blend of fun, safety, and advanced features tailored for young riders.

##### Key Features:

**Vibrant Aesthetics:** Each model showcases unique graphics and colors, ensuring that every scooter stands out. The designs are not only visually appealing but also inspire creativity and individual expression among riders.

**User-Friendly Operation:** The scooters feature an intuitive control system, allowing children to easily navigate different speeds for a comfortable riding experience. The three-speed options cater to varying skill levels, ensuring safety and ease of use.

**Compact and Lightweight:** With a size of 1080 x 635 x 555 mm and a maximum load of 50 kg, these scooters are lightweight and easy to handle. This makes them perfect for younger riders who are just starting their journey in electric mobility.

**Powerful Performance:** Equipped with a 200W brushless motor, these scooters provide smooth acceleration and reliable speed. The 36V lithium battery charges in just 3-5 hours, offering a range of 8-14 km, perfect for neighborhood rides.

**Safety First:** Safety features include a reliable braking system and sturdy construction, ensuring a secure ride for kids. The ergonomically designed seating and knee pads add to the comfort, making longer rides enjoyable.

In conclusion, our electric ride-on scooters are not only fun but also designed with safety and performance in mind, making them an ideal choice for adventurous young riders.

#### Technical Parameters:

Children Electric Scooter	
Product Size	108x 93x 53 x 65 cm
Charging Time	3 - 5 hours
Range	4 - 6km
Voltage	36V 3Ah
Motor	200W brushless
Frame Material	Iron + Plastic
Rear Wheel	PU with light
Max Load	60 kg
Carton Size	58.5 x 45 x 21 cm

#### Applications:

The electric ride-on scooters are versatile and suitable for a variety of applications, enhancing both recreational activities and transportation needs for children.

##### Recreational Use

These scooters are perfect for family outings, encouraging kids to explore parks, playgrounds, and community areas. They provide an exciting way to enjoy outdoor activities and foster social interaction among peers.

##### Educational Environments

Schools can integrate these scooters into physical education programs, promoting physical fitness and outdoor engagement. They can also be utilized during school events, enhancing teamwork and cooperative play.

##### Eco-Friendly Commuting

In urban settings, these scooters serve as a sustainable mode of transport for short distances. Children can use them to travel to friends' houses or nearby shops, promoting independence while reducing carbon footprints.

##### Community Events

Local communities can organize scooter rallies or events, fostering a sense of community among families. Such gatherings can promote safe riding practices and environmental awareness.

In summary, these electric ride-on scooters offer endless possibilities for fun, education, and sustainable transportation, making them an excellent choice for today's active youth.

#### Customization:

Our electric ride-on scooters offer several customization options to enhance personalization. Customers can choose from a variety of vibrant colors and graphics, allowing each scooter to reflect the rider's unique style.

For added comfort, adjustable seating and handlebars accommodate different heights, ensuring a perfect fit. Riders can also personalize their scooters with unique decals or stickers, making them one-of-a-kind.

Additionally, optional accessories such as storage compartments for personal belongings or Bluetooth speakers can be integrated, enhancing functionality and enjoyment. These customization features not only improve aesthetics but also foster a sense of ownership, making each ride special and unique.

#### Packing and Shipping:

Product Packaging:  
Children Electric Scooter

Battery Charger  
User Manual  
Shipping:  
Shipping Method: International Standard Shipping
