- Minimum Order Quantity: 10 pcs
- Delivery Time: 40-50 Days

LK-LEE943

Product Specification

- Transport Package: Caton Box Package
- Wattage: 251 - 350W
- Gross Weight: 45kgs
- Type: Full Suspension
- Trademark: Childhood Playland
- Battery Voltage: 36V
- Motor Position: Rear Hub Motor
- Pedal Assist: 1:1 Intelligent
- Highlight: **Intelligent Pedal Assist Bike,
Full Suspension Electric Two Wheeler Bike**

Product Description

Product Description:

The Electric Mountain Bike is a top-of-the-line product designed for those seeking a thrilling outdoor adventure with the convenience of electric assistance. Offering a perfect blend of power, performance, and durability, this electric mountain bike is sure to impress riders of all skill levels.

With a high power 36V controller equipped with a PAS sensor, this electric mountain bike provides seamless assistance as you conquer challenging terrains. The pedal assist feature ensures a 1:1 intelligent power delivery, giving riders the boost they need to tackle steep inclines and rugged trails with ease.

Designed for maximum comfort and control, this electric mountain bike boasts a full suspension system that absorbs shocks and vibrations, allowing riders to maintain stability and control at high speeds. Whether you're cruising through rocky paths or navigating tight corners, this bike offers a smooth and enjoyable ride.

The 36V battery voltage ensures long-lasting power to support extended rides, making it ideal for riders looking to explore the great outdoors without worrying about running out of battery. With the ability to cover long distances on a single charge, this electric mountain bike is perfect for all-day adventures.

For those looking to customize their ride, the Electric Mountain Bike can also be paired with an Electric Mountain Bike Conversion Kit to enhance its capabilities further. Whether you're seeking higher speeds, improved torque, or enhanced battery life, the conversion kit offers a wide range of options to tailor your riding experience to your preferences.

With a container load capacity of 110PCS/1X20'gp and 290PCS/1X40'hq, this electric mountain bike is perfect for retailers looking to stock up on high-quality, high-speed ebikes for their customers. The efficient container load ensures that businesses can meet the demand for electric mountain bikes while optimizing shipping costs and logistics.

In conclusion, the Electric Mountain Bike is a versatile and powerful option for riders seeking an exhilarating off-road experience. With its high power capabilities, intelligent pedal assist system, and full suspension design, this electric mountain bike offers the perfect balance of performance and comfort. Whether you're a seasoned rider looking to conquer new trails or a beginner seeking an extra boost, this bike is sure to deliver an unforgettable riding experience.

Applications:

The BSE Electric Mountain Bike, model BSE-VFINE-1, is a versatile and powerful electric two-wheeler bike designed for various outdoor activities and terrains. With its full suspension design and front suspension fork, this electric mountain bike provides a smooth and comfortable ride even on rough trails and bumpy roads.

Whether you are a mountain biking enthusiast looking for an extra boost to conquer challenging uphill climbs or a nature lover seeking an eco-friendly transportation option for exploring off-road trails, the BSE Electric Mountain Bike is the perfect companion for all your adventures.

Originating from China, this electric mountain bike combines quality craftsmanship with innovative technology to deliver a reliable and efficient performance. The minimum order quantity of 10 pcs makes it an ideal choice for retailers, outdoor activity centers, and adventure tour operators looking to offer a premium electric bike experience to their customers.

With a gross weight of 45kgs, the BSE Electric Mountain Bike strikes a perfect balance between sturdy construction and easy maneuverability. The 1:1 intelligent pedal assist feature enhances the rider's biking experience by providing seamless assistance based on their pedaling intensity, making uphill climbs effortless and long-distance rides enjoyable.

Thanks to a quick charge time of 3.5 hours, you can spend more time riding and less time waiting for your electric mountain bike to

recharge. The delivery time of 40-50 days ensures that you receive your BSE Electric Mountain Bike promptly, allowing you to start exploring new trails and pushing your biking limits right away.
