### Basic Information

- Place of Origin: China
- Brand Name: BSE
- Model Number: BSE-VFINE-1
- Minimum Order Quantity: 10 pcs
- Delivery Time: 40-50 Days

### Product Specification

- Fork: Air Suspension
- Pedal Assist: 1:1 Intelligent
- Motor Position: Rear Hub Motor
- Charge Time: 3.5 Hours
- Motor: 250W Brushless Geared Motor
- Transport Package: Carton Box Package
- Model: EMB-001
- Trademark: Childhood Playland
- Highlight: **High Speed Ebike,  
Intelligent Pedal Assist High Speed Ebike**

## Product Description

### Product Description:

An Electric Mountain Bike, also known as an Electric Bike, is a versatile and eco-friendly mode of transportation that combines the benefits of cycling with the assistance of an electric motor. The Electric Mountain Bike is designed for off-road adventures, making it perfect for exploring rugged terrains and conquering challenging trails.

The Electric Mountain Bike model EMB-001 is equipped with a powerful 250W Brushless Geared Motor that provides reliable and efficient assistance while riding. This motor ensures a smooth and effortless experience, especially when tackling steep inclines or rough terrain. The motor's brushless design contributes to its durability and low maintenance requirements, making it an ideal choice for outdoor enthusiasts.

One of the standout features of the Electric Mountain Bike is its Air Suspension Fork, which enhances the overall riding experience by absorbing shocks and vibrations from uneven surfaces. The air suspension fork not only improves comfort and stability but also increases control and maneuverability, allowing riders to navigate through challenging landscapes with ease.

Controlling the Electric Mountain Bike is made easy with the 36V Controller equipped with a PAS Sensor. The controller enables smooth and responsive handling, ensuring precise control over the motor's assistance levels. The PAS Sensor adds an extra layer of convenience by automatically adjusting the motor output based on the rider's pedaling cadence, enhancing the overall riding efficiency.

When it comes to logistics, the Electric Mountain Bike EMB-001 is designed to be easily transported and distributed. With a container load capacity of 110 pieces in a 1X20'GP container and 290 pieces in a 1X40'HQ container, the Electric Mountain Bike is suitable for both individual purchases and bulk orders. This efficient packaging ensures that the Electric Mountain Bike can reach customers around the world in a cost-effective and timely manner.

In conclusion, the Electric Mountain Bike EMB-001 is a top-of-the-line electric bike that combines performance, comfort, and sustainability in one versatile package. Whether you're a seasoned mountain biker looking for an extra boost or a nature enthusiast craving new adventures, the Electric Mountain Bike is the perfect companion for exploring the great outdoors with ease and style.

### Applications:

The BSE Electric Mountain Bike, model BSE-VFINE-1, is a high-quality electric two-wheeler bike designed for a variety of outdoor adventures. With a wattage of 251-350W and a rear hub motor position, this electric mountain bike provides powerful performance to tackle challenging terrains.

There are numerous product application occasions and scenarios where the BSE Electric Mountain Bike excels:

1. Mountain Trails: The bike is ideal for riding on rugged mountain trails, providing the rider with the power needed to conquer steep inclines and rough terrain.
2. Off-Road Adventures: Whether you're exploring forest paths or rocky trails, this electric mountain bike offers the versatility and performance to handle off-road adventures with ease.
3. Commuting: The BSE Electric Mountain Bike can also be used for daily commuting, offering a convenient and eco-friendly alternative to traditional transportation methods.
4. Outdoor Exploration: From camping trips to countryside tours, this electric bike is a great companion for outdoor exploration, allowing riders to cover more ground and explore new places.

With its minimum order quantity of 10 pcs and delivery time of 40-50 days, the BSE Electric Mountain Bike is suitable for individuals, retailers, and outdoor enthusiasts looking for a reliable and high-power ebike. The bike is manufactured in China under the trademark Childhood Playland and comes in a caton box package for easy transportation.

The quick charge time of 3.5 hours ensures minimal downtime, allowing riders to get back on the road swiftly. Whether you're a thrill-seeker looking for adventure or a commuter seeking a greener way to travel, the BSE Electric Mountain Bike offers the performance and reliability you need.
